¹ Indicates additional contributions from ELARF are added to this contribution rate to get the total contribution amount shown

² Present Value is calculated as of 12/31/15

³ Debt Service is based on a 30-year level repayment of a \$1.0 billion bond sold at 4.42%.

⁴ Present Value of the debt service payments is calculated as of 12/31/15 using the 8% investment return assumption, as opposed to the assumed bond rate of 4.42%. The total present value of the difference between the alternate plan and current law (column 16) reflects the arbitrage that would be realized if bonds were sold at 4.42% and all actuarial assumptions are met in the future. This does not reflect savings to the State as the investment earnings are in the KPERS trust fund, but debt service payments are from another source.

Current Provisions vs. 8.65% for Last Half of FY15, 9.69% for FY16, 9.59% for FY17, \$1.5B Bond Proceeds, No Additional Funding from Expanded Lottery Act Revenue Fund (ELARF) KPERS State/School Group

¹ Indicates additional contributions from ELARF are added to this contribution rate to get the total contribution amount shown.

⁴ Present Value of the debt service payments is calculated as of 12/31/15 using the 8% investment return assumption, as opposed to the assumed bond rate of 4.42%. The total present value of the difference between the alternate plan and current law (column 16) reflects the arbitrage that would be realized if bonds were sold at 4.42% and all actuarial assumptions are met in the future. This does not reflect savings to the State as the investment earnings are in the KPERS trust fund, but debt service payments are from another source.

² Present Value is calculated as of 12/31/15

³ Debt Service is based on a 30-year level repayment of a \$1.0 billion bond sold at 4.42%.

Current Provisions vs. 8.65% for Last Half of FY15, 9.69% for FY16, 9.59% for FY17, Extending Amortization for 10 Years, \$1.5B Bond Proceeds, No Additional Funding from Expanded Lottery Act Revenue Fund (ELARF) KPERS State/School Group
