Testimony Before The
SENATE COMMITTEE ON LOCAL GOVERNMENT

In Support of HB 2163

Presented on behalf of the
Johnson County Board of County Commissioners

By

F. Lawrence (“Larry”) McAulay
Assistant County Counselor
Johnson County, Kansas

March 17, 2015

Mr. Chairman and Members of the Committee:

Thank you for the opportunity to present testimony in support of HB 2163, which amends K.S.A. 12-2908 relating to contracts between municipalities. The Johnson County Board of County Commissioners supports the Bill in its current form.

K.S.A. 12-2908 is a useful tool for cities, counties and townships when entering into agreements to cooperatively perform certain governmental services. Listed below are some examples of how Johnson County has used this statute in recent years:

- 1) Information technology services;
- 2) Public road improvements;
- 3) Housing assistance programs; and
- 4) Stormwater management projects.

Due to the limited definition of the word “municipality” in the statute, Johnson County does not have the opportunity to use this statute to enter into similar contracts with local municipalities that are not listed in the statute. The proposed amendment would expand the definition of “municipality” in K.S.A. 12-2908 to include school districts, library districts, road districts, drainage districts, sewer districts, and fire districts. This change would create more

opportunities for cooperative efforts by local governmental entities, leading to enhanced efficiencies, dedicated expertise and cost savings.

We appreciate your consideration of our comments and ask that you support the adoption of HB 2163 in its current form.

Thank you.
