

This letter is in support of Bill SB5 that would establish a portion of HWY 69 in Overland Park, KS to be named the 2 LT Justin Lee Sisson Memorial Highway.

Justin was a part of our family's lives during his middle and high school years as he attended Blue Valley West High School with our sons. Justin maintained that connection to our family in his adult years. Justin was a young man set apart. He knew his goals and that was to serve his country in the military as a career. He knew it from a young age and is evident by his college educational journey. How many young people interrupt college to do an overseas deployment and then come back and finish their degree? But that was his plan, to understand the workings of the common man in the military so he would be successful in a military career. He would have made a wonderful career military individual. He left his mark on all of us and his country. The years he spent in Kansas are remembered well and his influence runs deep. His memory deserves this memorial on HWY 69. Please support Bill SB5.
