

We have known the family of Justin Sisson for nearly 20 years. I can't think of a better way to explain who Justin was than by sharing what was said by someone that served with Justin in Iraq

"I got to know Justin during our deployment to Mosul, Iraq. If I had to pick a young member out of all the ranks I have ever known in 27 years of service, Justin would be the poster child for the U.S. military. He was devastatingly smart, handsome, and caring to everyone he met."

Lieutenant Colonel Kevin L. Becar

Justin was raised in Kansas. Kevin and Phyllis Sisson were raised in Kansas. The values Justin learned and the man he became were rooted in Kansas. Justin attended Blue Valley West High School in Kansas.

One of the most important things to the Sisson family now is making sure Justin is remembered. I believe naming the portion of Highway 69 that passes closest to Blue Valley West High School will support the permanent remembrance of Justin and the selfless sacrifice he gave for our country.

Thank you for your consideration,

Scott Miller
