

Proposed amendment

All state agencies named in the appropriation bill would be appropriated the same amount of moneys as in FY15 or their current appropriation for FY16 and FY17, whichever is less. If such agency is appropriated more, the amount would lapse back to the SGF. Regarding special revenue funds, the money would be transferred to the SGF, if such action would not violate state or federal law. If such transfer is unlawful pursuant to state or federal law, the expenditure limitation would decrease and money would remain in the fund.
