Three options to balance the FY 2016 and FY 2017 budgets are presented to the Legislature for consideration and action. Each of these options includes actions that may be taken through the Governor's allotment authority and actions that require Legislative approval. The attached profile sheet provides more detail on each of these options.

Option One

Governor's Allotment Authority: The Governor would use his special allotment authority to reduce most of the remaining sales tax going into the State Highway Fund. This would transfer \$70.0 million to the State General Fund in FY 2016 and \$115.0 million in FY 2017. The Governor would also carry forward into FY 2017 the 3 percent reduction made to Universities in FY 2016, which would be \$17.7 million in reduced expenditures.

Legislative Approval Required: With legislative approval provided to the Governor through a budget proviso, the state could securitize future tobacco settlement payments in excess of \$42.0 million for an estimated one-time revenue infusion of approximately \$158.0 million in FY 2017. Children's programs currently financed through the Children's Initiatives Fund would continue to receive funding of \$42.0 million per year.

See the attached profile for more details on option one.

Option Two

Governor's Allotment Authority: The Governor would use his special allotment authority to reduce most of the remaining sales tax going into the State Highway Fund. This would transfer \$70.0 million to the State General Fund in FY 2016 and \$115.0 million in FY 2017. The Governor would also carry forward into FY 2017 the 3 percent reduction made to Universities in FY 2016, which would be \$17.7 million in reduced expenditures. The Governor would also utilize the special allotment authority to reduce expenditures or transfer \$25.0 million in targeted efficiency savings.

Legislative Approval Required: With legislative approval provided to the Governor through a budget proviso, the state would delay the FY 2016 fourth quarter KPERS payment as provided for in 2016 House Substitute for SB 161, and delay repayment until FY 2018.

Option Three

Governor's Allotment Authority: The Governor would use his special allotment authority to reduce most of the remaining sales tax going into the State Highway Fund. This would transfer \$70.0 million to the State General Fund in FY 2016 and \$115.0 million in FY 2017.

Legislative Approval Required: With legislative approval provided to the Governor through a budget proviso, most state agencies would see expenditure reductions of 3 percent to 5 percent for Fiscal Year 2017, totaling \$139.3 million.

The following is a summary of the reductions that would be made to state agencies:
