Page	Page 3
1 . 2 . 3 . 4 . 5 . 6 MEETING OF 7 HOUSE COMMITTEE ON APPROPRIATIONS 8 . 9 . 10 . 11 JUNE 23, 2016 12 COMMENCING AT 2:20 P.M. 13 . 14 . 15 . 16 . 17 . 18 . 19 . 20 . 21 . 22 . 23 . 24 . 25 .	CHAIRMAN RYCKMAN: Good afternoon, Committee. As a reminder, we do have a transcriptionist here, so please speak clearly and slowly. And I call for partisan support to remind me to do the same. Before we do plan on working House Bill 2001, before we get into that, I want to have some time to discuss some other options that have been out there as far as financing. We have both J.G. and our Budget Director is here, as well, Director Sullivan, to discuss these. But before we do that, I have a request for bill introduction, so I'm asking Representative Henry. REP. HENRY: Thank you, Mr. Chairman. I would request that the committee adopt or introduce the Kansas Democrat school finance proposal revenue package that was presented. CHAIRMAN RYCKMAN: Second by Representative Denning. Any discussion? All in favor, say aye. (Voice vote.) Opposed? (Voice vote.) Bill is introduced. Any others? Okay. To kind of give an understanding of where we are at, and then again some of the ideas that we've heard that I know I've talked to many in this room or I've talked to
Page 1 INDEX	Page 4 1 superintendents across the state, the Budget
2 . 3 . 4 Certificate	 Director, our Deputy Secretary of Education, as well as Mr. Scott, that I think it would be good

1

Page 5

1 morning we used about 10.5 of that. The total 2 amount of that is about \$16,000,000.

Discussion also included TANF funding. We

4 had discussed at one point in time about 10 point

-- about 10.1 million dollars. When we back into

6 that a little bit further, about \$6,000,000 of

that the Department for Children and Families

looked at that and thought that they really can

use \$6,000,000 for some of the Four-Year-Old At-

10 Risk, so we brought that back down to 4.1 million

11 dollars.

12 There was some discussions on the Motor

Vehicle Modernization Fund. That's a \$4 fee that

are added on top of driver's licenses. That total

brings in about 12.2 million dollars. We

allocated about \$3,000,000 of that, so there is

17 \$9,000,000 that moves money from the modernization

fund into the state highway fund. That's some of

the discussions that has been brought up.

2.0 There is also the Job Creation Fund.

21 Currently, that fund has about 15.4 million

dollars in it. Different plans have discussed

using portions of the Job Creation Fund. I'm not

sure that I am -- I think that's all of them that

25 I know of that we have as far as revenue sources

Page 7

MR. SULLIVAN: I'll be happy to respond

to what the fund does. As Mr. Scott said, there

is about 14 or \$15,000,000 in the balance of it.

Of that total, about half of it has been committed to binding commitments. The Amazon One project at

Gardner-Edgerton was -- had an amount that was

7

committed to be paid out, in other words, to

secure that business to that location.

9 There was an aviation company in Wichita that

10 also was -- I don't know if it was recruitment or

11 retention -- that had a number of jobs associated

12 with it.

13 The Goodyear plant here in Shawnee County had

a binding commitment from it, from this pot of 14

money from the JCF.

16 There is an upcoming commitment that we made,

probably within the next couple of weeks, in a 17

major metropolitan area that that has been used in

19 part from this fund for the creation of new jobs.

20 So there is roughly between 7 and \$8,000,000 that

21 have been committed.

22 The other part, so there will be a 7 to

\$8,000,000 balance that is left. We prefer not to

take from that because we have already eliminated

the annual transfer that goes to the Department of

Page 6

1 that we've talked about.

CHAIRMAN RYCKMAN: Any other revenue

3 sources that have been discussed that you've heard

that you want to discuss now? Representative 4

5 Denning.

8

10

REP. DENNING: Can I ask the Budget 6

7 Director, Mr. Chairman?

CHAIRMAN RYCKMAN: Director Sullivan,

9 could you please come up?

REP. DENNING: Thank you. The -- Mr.

11 Scott talked about the job creation program and

12 that was identified, there is like 13, 16 -- what

13 did you say?

14 MR. SCOTT: 15.5.

REP. DENNING: 15.5 million. The bill 15

16 that we just introduced had used some of the

17 13,000,000, 13,000,000 for schools. The bill that

we heard this morning was going to use -- take a

cut from every school district, a half of a

percent cut. So according to our information,

21 this money is just sitting idle in the Department

22 of Commerce. Can you explain to us why it would

23 be more advantageous to cut schools almost

24 \$13,000,000 and leave funds sitting idle? And I

25 know you had a response, so I kind of wanted to --

Page 8

1 Commerce for the Job Creation Fund purpose in the

2 approved budgets for 2016 and fiscal year 2017.

and also reduce some of the other economic

development funds at the Department of Commerce,

5 with the understanding that they would have this

balance at the JCF, or Job Creation Fund, for the

next couple of years to spend down.

The reason -- the last thing I'll close with

9 on this question is the reason that had a balance

10 was that they were spending down a program called

impact bonds and they had a specific deadline or

timeline they had to spend for that program. And

I'm not sure of the specific source of revenue

that goes into that particular fund at Commerce,

15 but over the last year or two they have been

spending down that impact bond fund because of the

17 deadline they had to spend that. So projects they

normally would have to use from the Job Creation

Fund the last couple of years, they have been

20 using the impact bonds instead. That source is no

21 longer there. So they've used half of it for

22 binding commitments for a couple of projects in

Shawnee Mission and plan to use the remainder of

24 the balance for other projects in the next year or

25 two.

Page 9 1 REP. DENNING: Mr. Budget Secretary, can ¹ Edgerton is not that much. So I'm trying to -- a 2 we get some of that, what you just told us, in 2 lot of money must be going to the Wichita and the 3 writing because I -- because I need to -- this is Goodyear project. 4 all new information that we had never heard 4 MR. SULLIVAN: I was told there is a anything about. I mean, if we go home and say we 5 number of projects that have been committed to out 6 had to cut schools 13,000,000 and the trade-off of the part of the fund, the balance that has 6 was -- we had funding sitting here for jobs, but 7 commitments. I'll ask the Department of Commerce maybe -- we may be losing some school jobs to keep 8 to send over -these jobs. So I just want to make sure you have 9 REP. WOLFE MOORE: I would like -in writing what we got. 10 MR. SULLIVAN: -- as much information as 10 11 MR. SULLIVAN: I'll send to the Committee 11 we can. 12 Chair or his staff from the Department of Commerce 12 REP. WOLFE MOORE: -- exactly how much is or from me later this afternoon. 13 going to every project so we know exactly how much 14 REP. DENNING: I appreciate that is available. Thank you very much. 14 15 information to share with other members of the Thank you. Mr. Chair. 16 16 CHAIRMAN RYCKMAN: Representative body. 17 CHAIRMAN RYCKMAN: Representative Lunn. 17 Highland. 18 REP. LUNN: Thank you, Mr. Chair. Shawn, 18 REP. HIGHLAND: Thank you, Mr. Chair. 19 I assume all this money that might be there for 19 Could you give us an update on the Bioscience job creation is going to be targeted for growth of 20 Authority, the selling off the assets and where we 21 private sector jobs? 21 stand on that? 22 22 MR. SULLIVAN: That is correct. MR. SULLIVAN: We have been working with 23 REP. LUNN: And could you give me any the Bioscience Authority staff on the sale of the 24 indication of what other surrounding -- I know portfolio. There has been some number of 25 conversations or communications between their Texas has an enormous job closing, deal closing Page 10 1 fund. How are we stacked up compared to 1 board and their Executive Director, myself, 2 members of the Governor's staff. So it will be competition to be able to attract businesses? hopefully sometime in the next quarter. 3 MR. SULLIVAN: I have been told by the REP. HIGHLAND: Thank you. 4 Department of Commerce that when we compare our 4 fund to other states, ours is much smaller. I've 5 CHAIRMAN RYCKMAN: I believe, you correct 6 never done an empirical analysis on that, but I me if I'm wrong, that this year's budget assumes a 6 7 have read some articles, literature about it from 7 \$25,000,000 proceed already? national associations that would say that, as 8 well. So my understanding is that our fund, the 9 assumes revenue from the KBA sale. purpose we use it for is economic development, is 10 11 smaller than other states. 11 REP. HENRY: The -- I don't want to go 12 into a job creation hearing here, but there is REP. LUNN: Thank you. 13 CHAIRMAN RYCKMAN: Representative Wolfe concern about, you know, Amazon closed in 14 Moore. 15

MR. SULLIVAN: The fiscal year '17 budget CHAIRMAN RYCKMAN: Representative Henry. Independence and then moved somewhere else and now REP. WOLFE MOORE: Thank you, Mr. Chair. 15 we reward them with some more funding, some more To follow up a little bit on Representative 16 commerce money. So do you have any response to 17 Henry's questions and remarks, I would be very that? Is that -- do we do that all the time, 17 18 curious to see the actual breakdown because my allow a company to close and then reward them? 19 understanding, between the Edgerton project and 19 MR. SULLIVAN: I'm not familiar with 20 that, the Amazon specifics, but I'll go try to 20 the major metropolitan city project, which we all 21 know where that is going and who that is, that 21 find as much detail as what they are willing to 22 just barely consists of about a million. I think send over, include that in the information, as 23 the amount that goes to the major metropolitan well as the other information that you requested.

24

24 project is between 700 and \$800,000 at the top, if

25 we get all the jobs we hope to out of that, and

16

REP. HENRY: Mr. Chairman, one more. So

25 I'm still confused. We heard we are going to

Page 11

Page 12

9

Page 13

- 1 leave about 8,000,000 left in extraordinary funds;
- 2 is that correct? And that if other school
- 3 districts -- how do we -- if we have 20,000,000 in
- 4 requests, how do you do the 8,000,000? What's the
- process here, is it first come, first serve? Or
- how are you going to do this?
- CHAIRMAN RYCKMAN: Representative Henry, 7
- 8 I'll address that. Because the way the bill is
- drafted, just last like the last one we passed 9
- that had a hold harmless in it, that when schools
- did lose money, the one the Court's rejected, the 11
- 12 reason we are here today, this one is the same.
- 13 It basically gave the money to the Department of
- 14 Education to distribute. It still has a provision
- for equity. It also has provisions for new
- 16 growth.

2

- 17 Now, the Johnson County superintendents have
- suggested and our Department we spoke with would
- follow the policy of a -- either a two to three
- 20 mill increase. It would have cost two or three
- 21 mill increase to be eligible to refill that LOB
- pot. And so if we have a rural district that has
- 23 to raise the LOB 10, 15, they would be first on
- 24 the list, compared to like the district I
- 25 represent would not be eligible for the LOB

- 1 And so back to our request, by the time we get
 - 2 that request we'll probably be done and out of
 - here, so I'll just take your word for it that
 - there is \$7,000,000 worth of commitments. So what

Page 15

- about -- did we take the other six to use for
- schools? That is half of that 13, just about, and
- we would lessen the cuts to schools and that would
- 8 make a major difference.

MR. SULLIVAN: We would prefer to remain

that -- to keep the balance to JCF. Again, if we 10

would not have reduced or eliminated some of their

- other annual funding in the budget, I probably
- would have a different answer for you. But
- because we eliminated the annual transfer to the
- JCF fund and also reduced some of the other
- economic development programs they had, then we --
- when I recommended that to you in January, then my
- preference would be to keep the balance there so
- 19 they can use it to recruit new private sector
- 20 companies.

21

REP. WOLFE MOORE: And I appreciate what

- 22 it's normally for, but this is probably job
- preservation because if the worst happens and
- schools don't open, you know, it could make a
- pretty valid case this falls right in line with

Page 14

1 through this fund, but they could be for new

growth. you, Mr. Chair.

3 In addition to that, I believe a condition

- 4 would be the average mill needs to be at 19, a
- median mill of 19. So if you are above 19 and you
- 6 have to raise it two or three, I'm not sure of the
- exact number that was negotiated, then you could
- come to apply for -- so it doesn't reduce that.
- If you look in our hold harmless account, the
- districts that lost money was around 12. This 11 would reduce it significantly. The larger ones
- would not be eligible. It would be the ones that
- had large swings in valuations that would then
- cause large swings in their LOB increase. 14

15 REP. HENRY: Will \$8,000,000 be enough,

16 Mr. Chairman?

CHAIRMAN RYCKMAN: There is \$8,000,000 in

- the fund. Any agency that comes in front of this
- committee, we ask them that question, they answer always is we want more. I'm just saying this is
- 21 going to preserve the taxpayer dollars that we
- 22 have.

17

- 23 Any other questions for the Budget Director?
- 24 Representative Wolfe Moore.
- 25 REP. WOLFE MOORE: Thank you, Mr. Chair.

Page 16 1 what that pot of money should be used for. Thank

3 CHAIRMAN RYCKMAN: Representative 4

Ballard.

5 REP. BALLARD: Thank you, Mr. Chairman.

6 Osawatomie, I'm asking about that because that's a

large chunk of money right now. We are paying

\$1,000,000 a month because we are no longer

receiving the federal funding. Where do we stand

on getting our recertification back so we can get

our federal funding back and then we would have

\$1,000,000 we could free up? 12

13 MR. SULLIVAN: The \$1,000,000 -- well, we

requested 11.4 million of enhancements for the

fiscal year 2016 budget for Osawatomie. A portion

of that was for loss of fee funds and Medicare

money from not being certified for a portion of

2016. There was not additional money requested or

appropriated in the fiscal year 2017 budget. My 20 assumption is that the hospital will be

recertified at some point the first quarter of the

fiscal year. We will have to evaluate their

23 funding sources and their federal funds, fee

funds, what's coming in, what's coming out prior

25 to our budget submission in January. But to

Page 17 ¹ answer your question, there is not additional

² funding that is going to Osawatomie in fiscal year '17 due to the loss of the certification.

REP. BALLARD: One more, please. I read ⁵ recently we have a four percent reduction for like

Medicaid providers, which is really affecting the

case managers, which then goes really heavy with

8 KCARE because, as you know, I'm on the KCARE

oversight committee and have been wondering about

10 that. Why was that decision made, knowing that we

have a real problem with just getting our

providers on their feet and the case managements?

13 MR. SULLIVAN: As far as the case 14 management question, if they are home and

community-based service case management, I believe

they would have been exempted from the four

percent reduction, but there are others in the

room that may be able to answer that question

19 better than I.

20 But as far as why we made the four percent

21 reduction, we needed to make somewhere in the

22 range of \$90,000,000 of reductions in order to

23 make the budget for fiscal year 2017 work, based

24 on the revenue assumptions from the CRE that we

25 had plugged in. So we went ahead and did that

Page 19

¹ bill. Once the Modernization Fund and DMV was 2 completed, it's supposed to shift over the \$4 into

the state highway fund. So the 9.2 million

dollars is scheduled to go into the State Highway

Fund from the modernization fund. 6

REP. HUTTON: So that transfer hasn't

occurred vet?

8 MR. SCOTT: The transfer has occurred to

the state highway fund. That's sitting in the 9 state highway fund. If you were to eliminate

that, it will be transferred back -- it would 11

literally be a transfer from the state highway

fund into the state general fund, but it will be

because of the modernization fund fee.

15 REP. HUTTON: Another question. You mentioned that there was \$1,000,000 that went into

the Department of Administration's imaging deal.

Isn't there -- wasn't there already a balance in

19 that, as well?

20 MR. SULLIVAN: I believe the balance at

21 the end of this year is \$400, something like that. 22

REP. HUTTON: After the \$1,000,000

23 transfer?

24

MR. SULLIVAN: They spent the money this

25 year. We transferred part of it, as well, the

Page 18

1 with a total of about \$97,000,000 of reductions.

REP. BALLARD: Thank you, Mr. Chairman. 2

CHAIRMAN RYCKMAN: Representative Hutton. 3

REP. HUTTON: Thank you, Mr. Chair. This 4

5 might be for J.G. or Shawn. Run through the

modernization fund transfers. I'm still kind of

cloudy on what's there, what's moving around,

what's been committed. J.G. 8

MR. SCOTT: Thank you, Mr. Chairman. The 9

10 modernization fund is based on that \$4 fee that's

added to driver's licenses. That brings in a

total of about 12.2 million dollars. In the

13 appropriation bill, there was \$3,000,000 that was

appropriated to the Department of Revenue, to 14

Department of Commerce and --15

16 MR. SULLIVAN: Department of

Administration for the digital imaging fund for --17

and also to the Department of Revenue, not

Commerce. 19

20 REP. HUTTON: 3,000,000 each or --

21 MR. SULLIVAN: No. 3,000,000 total.

22 MR. SCOTT: And with the remaining

23 funding, that's the 9.2 million dollars. The 9.2

24 million dollars is transferred into the state

25 highway fund. That was done in a transportation

Page 20

1 unused money for '16. But they are scheduled to get a new \$1,000,000 in fiscal year 2017.

3 REP. HUTTON: So the money that was in

4 last year's budget that they never spent, they

spent it this year. As I recall, there was some

discussion that they had some funds that they 6

7 hadn't spent in that imaging fund.

MR. SULLIVAN: They spent, I believe,

half of it in fiscal year 2016 and then I

transferred the other half to the state general

11 fund as part of the round of allotments that we

12

8

13 REP. HUTTON: So it's gone?

MR. SULLIVAN: Yes. 14

15 REP. HUTTON: Okay, thank you.

16 CHAIRMAN RYCKMAN: Representative Lunn.

17 Lunn passes.

Any other funds of money we are looking at? 18

Representative Carpenter. 19

REP. CARPENTER: Thank you, Mr. Chair. 20

Are we on the bill that's introduced or are we 21

22 on --

23 CHAIRMAN RYCKMAN: Not yet. I wanted to

24 get some more questions and other ideas floated.

25 REP. CARPENTER: Well, could I get a Page 21

- ¹ couple clarifications from Mr. Penner? I'd like
- 2 the breakdown of all the figures that you had
- ³ earlier, the 4.1, how they all add up. If you
- 4 could get that copy. Do you have that? I don't
- 5 really need you to go over it. I'd just like to
- 6 have it.

8

- 7 MR. PENNER: Oh, you just want a --
 - CHAIRMAN RYCKMAN: While you are here,
- ⁹ you might as well go over it as far as the
- 10 transfer of money.
- MR. PENNER: I'd be happy to. The
- 12 estimated LOB cost for next year, from the state's
 - ³ perspective, is 467,000,000, and we currently have
- 4 367.6 million appropriated. And this bill
- appropriates an additional 99.4 million.
- The sources of that 99.4 million are, first,
- 17 that we eliminate the hold harmless money that
- existed in 2655. That is 61.8 million. Next, the
- 19 0.5 percent adjustment to general state aid is
- 20 13,000,000. Next, the adjustments to virtual
- $^{21}\,$ school state aid are a total of 2.8 million. The
- 22 adjustment to the extraordinary need fund provides
- 23 7.2 million. The TANF changes provides 4.1
- 24 million. And the remaining 10.5 million comes
- 25 from the master settlement agreement money that

- Page 23
 - ¹ ending balance, if that continues, and right now
 - 2 it appears as though we are not going to make that
 3 up, and it may get worse in June, we would not
 - up, and it may get worse in June, we would no
 - 4 have that \$21,000,000 ending balance. And in
 - 5 fact, we would have to probably sweep funds for
 - 6 some flexibility to get through the year or
 - 7 perhaps not make some payments in the current year
 - 8 to get through this year. So I would anticipate,
 - 9 you know, having very little, if any, ending
 - 10 balance.
 - So if that's the case, our \$87,000,000 ending
 - 12 balance will be reduced because we said we had a
 - 3 \$21,000,000 beginning balance. So if we reduce
 - that, we are down to about \$66,000,000. If we
 - have to delay some types of payments, that would
 - 16 reduce that, you know, \$66,000,000. So when we
 - 17 are just looking at where we are right now based
 - on the information that we have, the ending
 - balance would be substantially below, I would say
 - 20 below the 66,000,000. And depending on how much
 - 21 of those gets delayed, it could be, you know, 10
 - or \$15,000,000 ending balance for 2017 very
 - 23 easily. And that would then be, assuming that
 - revenue for 2017 would be coming in, the same type
- 25 of projected increase that we have originally

Page 22

- 1 was vetoed from Section 56 -- 50(C) of the Senate
- 2 Bill 249, the budget bill.
- REP. CARPENTER: Thank you, Mr. Chair.
- 4 Could we get copies of that? I've had a lot of
- 5 questions about where it's coming from, and as old
- 6 as I am, I forget.
- 7 CHAIRMAN RYCKMAN: And we'll have -- I'll
- 8 have -- J.G. will go over our runs in a little
- 9 bit.
- 10 I think we probably ought to take time to
- 11 take a step back and look at the snapshot in time
- where we are now financially. I'll ask J.G. to
- come up and talk about where we are at and what
- 14 our projected balances will be next year, and
- maybe the Budget Director can fill in on what some
- 16 of our actuals are today.
- MR. SCOTT: Thank you, Mr. Chairman.
- Going back to where we were prior to the special
- 19 session, we had an ending balance in the current
- 20 year of 21.5 million dollars and a projected
- ending balance of a little over \$87,000,000 in
- 22 2017. So that's kind of where we started.23 If we go back to our state general fund
- 24 receipts from last month, we were over \$66,000,000
- short in total receipts. And with a \$21,000,000

1 planned.

8

14

- 2 CHAIRMAN RYCKMAN: So if our revenues
- 3 remain constant next year and everything we know
- 4 now, we would have a little over \$10,000,000 in
- 5 any of the funds that we talked about so far that
- 6 could be swept by the Governor to fill the gap for
- 7 all other programs?
 - MR. SCOTT: For those in the current
- year, yeah. I mean, like some of the funds that
- 10 are out there mainly to be used this year to get
- through expenditures for this year. And if those
- expenditures are used -- or the revenues used,
- 3 then they wouldn't be available for next year.
 - CHAIRMAN RYCKMAN: So, okay. Any other
- 15 questions on the big picture, where we are at and
- how -- as we look at these funds, I think we have
- all looked at different ways of angles, some, yes,
- are available, but it looks like they will be
- 9 needed to fund the rest of the state government.
- To Representative Ballard's comments earlier
- 21 about some of the Medicaid cuts, as this committee
- 22 has always done it looks at the entire balance of
- the state, and not just one of our largest
- 4 expenditures. That's why this bill has been kind
- 25 of crafted as it has in kind of the narrow scope

Page 24

1

Page 25

- 1 that it has.
- Any other questions for J.G.? I know one
- 3 more thing I'd like to some information on TANF
- that I want to clarify. Before that,
- Representative Finney.

REP. FINNEY: Thank you, Mr. Chair. I 6

was just wondering if you could just give us a

brief overview of that \$900,000,000 indebtedness

9 of the State Finance Council?

10 CHAIRMAN RYCKMAN: I don't want to get

11 too sidetracked on this, but basically the state

12 authorizes -- kind of borrows from itself to pay

the bills. It's been happening for quite a few

14 years. Yesterday, we did approve 900,000,000.

15 Any other questions? I would like to get some information on TANF here this morning that I 16

want clarified. And Representative Carpenter.

question on that for Director Sullivan?

19 REP. CARPENTER: Yes. Shawn, could you

20 clarify the transfer from the -- to TANF from CIF

21 for me?

22 MR. SULLIVAN: As I understand what's

proposed of being transferring 4.1 million dollars

24 that currently flows through the Children's

25 Initiative Fund, or CIF for short, to the Pre-K

Page 27 CHAIRMAN RYCKMAN: Representative

2 Ballard.

3 REP. BALLARD: I got a response to that

answer this morning and now it's really confusing 4

because I thought I was understanding it. If it's

not going to affect that program at all, and it's

-- but it's still going to reduce that fund to

37.9, so it's going to be less than 42. And we

are talking about record keeping, I understand

that. So again, I would have to ask for a

11 clarification. If we have \$42,000,000 and we take

12 4.1, you say it's record keeping and the program

gets to stay the same - I don't have my notes from

this morning where I understood it - I think -- I

would still like to understand when you say what

the record keeping would be. Are we reducing

those funds or not? And once we determine that,

then I can ask you another question. Are we

reducing the funds or will we keep 42,000,000 in 19

20 the Children's Initiative Fund?

CHAIRMAN RYCKMAN: There was an allotment

22 that was made. I think that's what's causing the

confusion. There was additional money from TANF

being put into the fund. That additional money

that we put into the fund is now being taken out

Page 26

21

Page 28

1 Pilot program of the Department of Education. There were some statements made this morning,

3 I'll quote, that equalize school funding probably

4 will have little impact if we strip the lifelines

⁵ of our youngest children. They need to enter the

6 kindergarten ready to learn. That's a ridiculous

statement. The proposal of moving 4.1 million is

purely record keeping. It's using TANF, instead

of CIF money. It will not change the children

served or the numbers served or anything like

11 that.

17

12 REP. CARPENTER: Thank you. Thank you,

13 Mr. Chairman.

CHAIRMAN RYCKMAN: J.G., if you want to 14

kind of clarify too from your perspective on what

16 this does to programs.

MR. SCOTT: Yeah, Mr. Chairman. We

talked with the Department for Children and

Families and wanted to make sure that what we are

saying is correct, and that's what we found, as

well; that we can serve the same children with the

22 same services that are out there. There would

23 just be some additional reporting that would be

24 required in order to use the TANF funding. That's 25 what we found in our request from the Department.

1 of the fund. I think the confusion comes from the 2 allotment of around \$3,000,000 that happened prior

4 REP. BALLARD: Okay, now, that's the

5 3,000,000, but that 3,000,000 is not the 4.1. I

mean, it's not included in the that. Am I

correct? 7

CHAIRMAN RYCKMAN: Yes, 4.1 is not in the 8

9 fund. 4.1 is coming out of the fund.

10 REP. BALLARD: Okay. The way I see it,

11 if I put 4.1 in and I take 4.1 out, it's not in.

CHAIRMAN RYCKMAN: That's right, and 12

13 nothing is going to affect it.

REP. BALLARD: It does. But for 14

15 reporting purposes it says TANF, but yet you say

16 it's coming out of --

17

CHAIRMAN RYCKMAN: Maybe we'll let J.G.

try to explain this better than I'm failing to do.

MR. SCOTT: Mr. Chairman, what we would 19

do is we would have the \$42,000,000 that is in the 20

fund, in the Children's Initiative Fund. We would

take 4.1 million dollars out of the Children's

Initiative Fund and transfer it to the state

general fund. So the Children's Initiative Fund

25 is being reduced 4.1 million.

Page 29

What is done following that is we are

- ² substituting 4.1 million dollars of TANF funding.
- So we are increasing the amount of funding going
- 4 in from a different source, from the TANF fund
- rather than Children's Initiative Fund, of 4.1
- 6 million dollars. The net effect to the program on
- this portion of it is zero. Instead of spending
- Children's Initiative Fund, it will be reduced,
- but TANF funds will be included in that 4.1
- million dollars. So the net effect to the program
- would be zero. They would spend 4.1 million less
- 12 in TANF and 4.1 million in -- I'm sorry, they
- would spend 4.1 million less in Children's
- Initiative Fund and 4.1 million more in TANF.

15 REP. BALLARD: So this is the Pre-K 16 program that we are talking about?

MR. SCOTT: Right.

18 REP. BALLARD: So they still have their 19 program, we are just going to fund it differently.

So you are not taking the 4.1 million and taking

the program? I see you're shifting the money all

around, but the program is still intact, but they

will -- but CIF will be reduced, but you are going

to put the money in another way? 25

MR. SCOTT: Correct.

Page 31

¹ That's what is reflected here is that reduction by school district.

When we put money in the block grant, we

4 identified a new formula to use. This goes from

the block grant, in column 4, to the new formula

based on the 81.2 percentile, which is the old

formula. So we went back to pre block grant. The

total effect of that is an increase of about

\$16,000,000. This identifies all of those that

are being reduced and all of those that are

getting additional funding. So the negative, the

amount that they are getting from the local option

budget state aid is going down. The positive, the

state aid is going up.

15 Capital outlay, this is stepping back for just a little bit because this is what we have as 16

our proved already. So this isn't in the bill.

18 but this is part of what the school districts are

getting. This is based on the -- once again, we

20 changed the formula in the block grant. This is a

21 change from the block grant to what is now in the

approved budget, and that's in column 4. Once

again, the positive, they are getting additional

state aide; negative, they are getting less state

25 aid.

Page 30

REP. BALLARD: And now you wonder why I 1 was asking the question?

CHAIRMAN RYCKMAN: It's a great question. 3

4 Thanks for asking.

5 Committee, we will hand out the runs for the

districts and J.G. will work through them with us. 6

So it looks something like this. 7

MR. SCOTT: Now that everybody is up 8

there on the Children's Initiative Fund, we'll go 9

10

17

11 And one of the documents that the Chairman

12 had requested was a summary of all the changes

that have happened basically to the block grant in one document. So what's -- what we have done is 14

we went through and pulled out all of the runs 15

16 that the Department of Education had done and just

17 picked out the differences from the block grant to

what is proposed here or what was included in the

capital outlay. Okay? And put it on one sheet of 19

20 paper.

21 So the first column you'll see, column 3, it

22 talks about general state aid, and this reflects

23 the half a percent reduction to the block grant.

24 So the proposal was to reduce one half of one

25 percent, and that totaled about \$13,000,000.

The second column 3 identifies the changes 1

2 for the virtual aid, and this is going to the

3 block grant. We are being consistent on that.

4 The block grant --

5 CHAIRMAN RYCKMAN: Can we have someone

shut the door please? 6

MR. SCOTT: The virtual state aid is 7

supposed to change from \$5,000 for full-time

students in 2016 to 5,600 in '17. If we go back

to what it was before, it was at 4,045. So in '15

11 it was 4,045, '16 it was supposed to go to 5,000

and in '17 it is supposed to go to 5,600. What

this does is it does not increase from '16 to '17.

So instead of going from 5,600 -- or from 5,000 to

15 5,600, this stays at the 5,000. So we show it as

16 a negative here because we are going back to the

block grant. But when you compare to what they 17

have this year and next year, these amounts would

be flat depending on the number of students.

20 Then the final column we just added up all of

21 the adjustments to total the total adjustments for

each of the school districts based on what's

happened. And it shows that when you look at it

in total, it's about 23.5, almost 23.6 million

25 dollars in increases that are offset by some

Page 32

Page 33

1 reductions.

25

2 CHAIRMAN RYCKMAN: Representative 3 Rhoades.

REP. RHOADES: Thank you. And just so I understand, and I'll just use the first page so it's easy for you, just to look at the top line, as an example. Am I right or am I wrong that

column 4, or that the LOB state aid part, that money is, in the case of Marmaton Valley, 400,000.

10 That's not money that's being taken from the 11 district, that's money that's being taken from the

-- not the school -- not from the school operating 13 funds, but from the district itself in terms of

14 the municipality, the property tax, or am I wrong

15 about that?

16 MR. SCOTT: It's just the opposite. 17 Actually, if it's negative, they would have been getting state aid from the block grant. And if it's negative, they are not getting as much anyway in the new formula -- or the old formula, if you

21 will. So they were expecting \$400,000 in state 22 aid in Marmaton Valley that they are no longer

²³ receiving. So this would actually reduce the ²⁴ dollars that the school district is getting.

You might be thinking about, perhaps, Iola

1 part is knowing how the property tax component ² figures.

CHAIRMAN RYCKMAN: Can I just add, this

Page 35

is the safe harbor option. This is what 81.2

does, and the state aid for Marmaton Valley would

be dropped 400,000. They would have the authority

to raise it back up locally and so their operating

budget would be -- not be affected if they chose

to do that. They also do have the option at the

State Board of Education to petition that they fit

that criteria that we talked about earlier where

12 they are already above 19. I don't have their

bills in front of me to know if they would or not.

And it would take more than two and a half mills

to make that difference. But if they chose --

again, this is just going back to the old formula.

This is not what the bill that we already passed

did, it was voted unconstitutional. This is what

19 the safe harbor is.

20 MR. SCOTT: Mr. Chairman, I would say 21 that while the LOB is somewhat confusing about

whether they are losing money for the school

district or -- or additional money going into

property tax relief, most of the capital outlay,

if that is a positive number, that is money that

Page 34

1 where they are getting \$70,000 more for the school

² district, but most of that money is going to go

3 into property tax relief for most of these because

of the amount of the LOB that is captured, the 30 5 or the --

6 REP. RHOADES: And I guess that's the confusing part. So when we are talking about

\$38,000,000, you know, in the discussion that we

are having, but the discussion is none of that

goes into the districts. If we bring that \$38,000,000 in, it doesn't go to the district, it

12 goes to property tax relief, correct? 13

MR. SCOTT: Correct.

14 REP. RHOADES: So that's a little confusing in looking at this to know. I guess for me I'm interested in knowing are you telling me 16

17 the total adjustment from the block grant on the far right, if it's negative, it's going to mean,

in the case of Marmaton Valley, that their

20 operating budget is going down \$410,000? 21 MR. SCOTT: That would be my

22 understanding.

24

25

23 REP. RHOADES: The school district?

MR. SCOTT: Yes.

REP. RHOADES: So that's the confusing

Page 36

1 goes into the school districts. So that is an

2 actual increase. So that money stays with the

3 school districts. So all of the capital outlay

increase of about \$23,000,000 does increase their

5 -- the funding available for those school 6

districts.

7

11

16

REP. RHOADES: But in the case of

8 Humboldt, the second line, even though they've got

capital outlay of 59,000 coming in, they are still

10 losing 312?

MR. SCOTT: Correct.

REP. RHOADES: Thanks. I just need to 12

understand it.

14 CHAIRMAN RYCKMAN: Representative

15 Johnson.

REP. JOHNSON: Thank you, Mr. Chairman.

And just following along, to make sure I have a 17

handle on it, we were looking at Marmaton Valley.

And if that change was made, there would be a

20 reduction which they could make up, should they

21

choose to hold themselves harmless, of that

400,000, if I'm reading that correctly. If I go

down a little further to about, oh, two-thirds to

three-quarters of the way down the page to Clay

25 Center, as another example, where they would lose

Page 37

1 34 on the LOB but a piece in capital outlay and
2 virtual, would that be a situation where they
2

could not make up the entire amount through theirLOB if they happen to be at the cap already?

5 CHAIRMAN RYCKMAN: I'm not certain if 6 they are at 30, 31 or 32.

REP. JOHNSON: I'm not certain that the are, just looking at to see if that might be

one - CHAIRMAN RYCKMAN: Almost everything in
 column 4, LOB state aid, could be adjusted based

12 on going back up locally to supplant the loss of

3 state aid, either going back to 81.2.

REP. JOHNSON: Thank you, Mr. Chair.

CHAIRMAN RYCKMAN: Representative Kleeb.

16 REP. KLEEB: Thank you, Mr. Chairman.

17 J.G., I just wanted to see if I'm understanding

18 this correctly. These are Iola and Marmaton. So

9 Iola gets LOB state aid adjustment. They get to

20 lower their mill levy, lower their taxes?

MR. SCOTT: If they are at their cap,

22 yes.

15

REP. KLEEB: While Marmaton, they get to

24 enjoy the other side of the coin; they have to

25 raise their taxes. This is where we have our

1 frustrating this is with the local option and the

2 mill levy, you know, because I'm not sure where

3 Humboldt is or where Marmaton, is as far as that

4 goes, but it's very hard to figure that out when

5 they could be at 25 or 30 or whatever, and we have

6 that all over the board throughout this whole

7 thing as we've seen in the past. So it's kind of

8 confusing sometimes when you deal with that LOB

9 option.

12

17

10 CHAIRMAN RYCKMAN: Any other discussion?

Page 39

Page 40

11 Representative Highland.

REP. HIGHLAND: Thank you, Mr. Chair.

13 Will you explain one more time the criteria for

14 whether they can raise mills up and where they

fall on the scale then if they can come in and ask

16 for help?

CHAIRMAN RYCKMAN: Okay. You're talking

about to apply to the extraordinary needs fund

19 through the Department of Education?

20 REP. HIGHLAND: And they have to have

21 that one or two percent.

22 CHAIRMAN RYCKMAN: Okay, this would be a

23 policy decision, but the way this bill is drafted,

24 it allows for this LOB fluctuation to be a

25 criteria to the funds they (inaudible) decide how

Page 38

1 to handle this. The policy would be that if you

2 are already at or above the median LOB of 19 mills

3 and it does not cost more than two and a half

4 mills to adjust, then you would qualify.

We could look at, you know, Shawnee Mission,

6 who graciously presented the idea, their district,

7 where they would lose -- Shawnee Mission would

8 lose 1.4 in their LOB state aid. Now, there is a

9 possibility that their valuation has gone up and

10 so there wouldn't be a mill reduction -- or

11 increase to make that up. I'm not certain. But

12 let's say if it was the same, I am confident that

13 it would -- two and a half mills would be more

14 than 1.4, so they would not qualify.

REP. HIGHLAND: Thank you.

16 CHAIRMAN RYCKMAN: Any other questions?

17 Representative Hoffman.

18 REP. HOFFMAN: Thank you, Mr. Chairman.

19 The values are based upon their last value in '15,

or what are these values based on as far as the

21 property tax or value of the properties?

22 CHAIRMAN RYCKMAN: I'll let Mr. Penner

23 answer this one.

MR. PENNER: So the aid amounts on this

25 are based upon the school district's assessed

1 winners or losers. Somebody has to raise their 2 taxes because somebody else gets to lower theirs? MR. SCOTT: Yes, and that's going back to 3 4 the equity basis, you know, that the Court wants 5 the legislature to approve. This would be the effect of that, the change from the block grant to 6 7 the old 81.2 percentile formula, yes. REP. KLEEB: Thank you, Mr. Chairman. 8 CHAIRMAN RYCKMAN: And one more factor in 9 there that you possibly couldn't show on the sheet is the actual valuations of each district. If the valuations are on the way up and this number would go down, the mill levy may not adjust. Of course, 14 it could have went down if the money stayed 15 constant. But if you're in a district, which, in theory, it's not a real formula to work with, your 17 valuations went up and your student population 18 didn't change much, you collected more locally and less came in from the state, and this is just 20 resetting it back prior to the block grant back to 21 the safe harbor. 22 Any other questions on the runs? 23 Representative Carpenter. 24 REP. CARPENTER: Thank you, Mr. Chair. I

15

25 don't have a question, it's more just stating how

		111/11	
	Page 41		Page 43
1	valuation per pupil during this year. That was	1	that we could make that a little smaller, and I
11	always the way the formula had worked prior to the	2	would totally favor using the other 7,000,000 in
3	block grant was that the prior year assessed	3	the Job Creation Fund to inch that down a little.
4		4	So maybe that makes it a little less
	pupil were used to determine equalization funding	5	unconstitutional, I don't know, but I'm truly
5	for the following year.		worried about that. Thank you, Mr. Chair.
6	CHAIRMAN RYCKMAN: Anymore questions? Not	6	CHAIRMAN RYCKMAN: Thank you. The
			Supreme Court in Gannon II directed the
8	seeing any, Committee will begin working HB 2001.	8	
9	Any other comments, amendments, discussion?	9	legislature to comply with Article 6 of the alleged equity component in one of two ways, and
10	I don't see any comments or questions.	10	
11	Representative Schwartz.	11	the first one is the safe harbor consisting of
12	MS. SCHWARTZ: Okay. At this time then	12	funding the old LOB and the capital outlay
13	if there is no further discussion, I move House	13	formula. That is what we are doing here and
14	Bill 2001 favorable for passage.	14	that's what we are addressing today.
15	CHAIRMAN RYCKMAN: Second by	15	REP. WOLFE MOORE: And Mr. Chairman, I
11	1	16	sincerely hope you're right. I just worry that
17	r	17	that will go another way. Thank you very much.
18	REP. WOLFE MOORE: Thank you, Mr. Chair.	18	CHAIRMAN RYCKMAN: Any other comments? We
11	I know I said this earlier in the day. My problem	19	have a motion and a second. All in favor of
	1 1 7 3 1	20	passing HB 2001 favorably, say aye. (Voice vote.)
	with using adequacy, touching adequacy to solve	21	Opposed? (Voice vote.) Motion the bill
	the equity program. And my biggest fear is that	22	passes.
23	the courts will say no to this, and that's really	23	Any other discussion before we take this up
24	a disaster. So that's my biggest fear. We can't	24	to the floor. We are adjourned.
25	be sure this won't trigger a Supreme Court	25	(THEREUPON, the hearing concluded at
	Page 42		Page 44
1	rejection of this plan. And if we have to use	1	_
2		2	3:20p.m.)
3	there not a way we could chip that 13,000,000 down	3	•
4		4	•
5	a little more palatable to the school districts.	5	•
11		6	•
	I mean, I in my district in KCK, one of my	7	•
	districts, if schools closed July 1st and this		•
11	r - F - F - 7	8	•
	furlough those people. We don't have special ed	9	
	programs in the summer; we don't have summer	10	
11	programs; we can't do maintenance projects to	11	
11	allow the schools to open. Every school district	12	
13		13	
11	Highway Patrol, and that's a very tight timeline.	14	
15	And so July 1st, that's when that's when the	15	
16	damage starts occurring.	16	
17	So I respect all the work that's gone into	17	
18	this plan, I truly do, but I think it has to be a	18	
19	plan that we can be as clear as we possibly can	19	
20	that the Supreme Court is going to okay. So	20	
21	that's a deliterate with precions with the emer	21	
	similar years curving, may a fust the succession	22	
	that has to happen, in my mind, but I truly have a	23	
	problem with the 13,000,000 that's spread across	24	
25	the school districts. And if there is any way	25	
11		1
