CONTINUATION SHEET

Minutes of the House Appropriations Committee at 9:12 a.m. on February 25, 2010, in Room 346-S of the Capitol.

Secretary Goossen responded to questions from committee members. He responded that agencies appearing before committee who are requesting additional staff are requesting additional funding. Secretary Goossen explained the vacancy listing in the SHARP Payroll System. Discussion followed regarding authorized full time equivalent (FTE) positions and the need to include the number of FTE's in an agency's budget. Committee members expressed concern that only actual, not authorized FTE, information should be budgeted. The practice of using authorized FTE and then applying shrinkage to determine budgeting needs seemed to be unnecessary and confusing, it was noted.

Chairman Yoder thanked Secretary Goossen for opening the dialog between committee members and the Department of Administration, regarding staffing and budgeting issues, and he stated that this is an area that may be revisited during this session.

The next meeting is scheduled for March 1, 2010.

The meeting was adjourned at 10:58 a.m.

In accordance with KSA 75-3715a, the following fiscal note concerning SB 387 is respectfully submitted to your committee.

SB 387 would direct agencies to pay claims against the state from their existing State General Fund accounts and special revenue funds in FY 2010. The bill also makes two direct appropriations from the State General Fund. The claims in this bill affect the Departments of Revenue and Corrections. Claims paid from a direct appropriation are generally processed through the Legislature's budget.

In 1994, the Legislature changed the budgeting cycle for selected state agencies to a biennial budget cycle. Most of the agencies that are required to prepare biennial budgets are funded through fees and perform regulatory or licensing activities. They are comprised of occupational and professional licensing agencies and the financial regulatory agencies. Generally, the Legislature puts an expenditure limitation on these special revenue funds. The Governmental Ethics Commission was changed to a biennial budget agency by the 2000 Legislature, and is funded, in part, by appropriations from the State General Fund. The 2009 Legislature approved biennial agency budgets for FY 2010 and FY 2011. The agencies are not required to submit new budget requests until September 2010. Although funding has already been authorized, the law allows agencies to request adjustments to the approved expenditure limitations.

The approved amount for FY 2010 has been adjusted to reflect increases due to the state undermarket pay plan approved by the State Finance Council. No similar adjustment has been made to the amount for FY 2011. However, some agencies adjusted the FY 2011 budget request to reflect the pay plan increase in FY 2010. In some instances, the Governor's recommendation for FY 2011 concurred with the agency's request, including the adjustment. Only agencies requesting upward

adjustments to their previously approved budgets for FY 2010, FY 2011, or both, are discussed below.

The 2009 Legislature approved a recommendation by the Governor to reduce biennial agency expenditure limitations. The Legislature did not approve the Governor's recommended transfer of the savings created by the expenditure limitation reductions to the State General Fund. Instead, the 2009 Legislature approved a total transfer of \$296,030 from biennial agency fee funds to the State General Fund for FY 2010. The specific agencies required to make the transfer, and the amount of the transfer, are detailed in the following table.

FY 2010 Biennial Special Revenue Fund Transfers

AGENCIES REQUESTING ADJUSTMENTS

Office of the State Bank Commissioner

FY 2011. The agency requests \$8,894,993, all from special revenue funds, an increase of \$381,553, or 4.5 percent, above the FY 2011 approved amount. The increase is attributable an enhancement request for additional salaries and wages in both the Examination and the Consumer and Mortgage Lending Departments. The 2009 Legislature reduced the expenditure authority for FY 2011 below the amount approved for FY 2010 by \$267,536. The agency states that it will not be able to maintain operations without the enhancement funding.

The request includes 99.0 FTE positions, the same level as the approved amount.

Governor's Recommendation

FY 2011. The Governor does not concur with the agency request but recommends FY 2011 expenditures totaling \$8,513,440, the same level as the approved amount. The Governor does not recommend the enhancement for salaries and wages.

Bank Commissioner Fee Fund Analysis

The Bank Commissioner Fee Fund is funded by assessments on state chartered banks and trust companies. The amount of that assessment is dependent upon total bank or trust assets. Despite the fact that the fund is supported by assessments and not fines income to the fund remains highly variable.

However, the KSIP program has been eliminated. Therefore, the agency increased fees in April 2009, to create a balance to account for this increased cost. The additional \$14,800 increase is due to an enhancement request to replace one high mileage vehicle. Absent the two enhancement requests, the agency's FY 2010 request is the same as the amount approved by the 2009 Legislature. The request includes 12.0 FTE.

FY 2011. The agency requests \$806,017, all from the Board of Cosmetology Fee Fund, which is an increase of \$33,200, or 4.3 percent above the approved FY 2010 amount. Dental Board Fee Fund Analysis

The Dental Board receives most of its revenue from biennial registration fees. Legislation was passed during the 1995 Session to change the Board's practice of annual licensing to biennial licensing. This change reduced the Board's mailing expenses and related costs. The Board created a prorata fee that helped with the collection of biennial fees listed above. The schedule breaks the fee a licensee pays into 24-month blocks.

Governmental Ethics Commission Fee Fund Analysis

The Commission's main source of revenue is the State General Fund. However, a portion of its revenue comes from the Governmental Ethics Commission Fee Fund. The Governmental Ethics Commission Fee Fund was established by K.S.A. 25-4119e. Receipts to the Governmental Ethics Commission Fee Fund come mainly from three sources: candidate filings, political action committee registrations, and lobbyist registrations. Other sources for receipts are civil penalties and fines imposed by the Commission and charges for publications, but these amounts are relatively small.

The **agency** requests \$2,830,556, all from special revenue funds, an increase of \$200, above the FY 2011 approved amount. The request includes an increase of \$52,979 in salaries and wages offset by a reduction of \$60,318 in contractual services from FY 2010 to FY 2011. The agency states that the shift is necessitated due to the promotion of one Special Investigator and one State Auditor resulting in higher salary costs; however, in June of 2010 the Commission will relocate their facilities saving approximately \$73,028 over the FY 2010 amount. All expenditures would be made from special revenue funds. The request includes \$178,179 for salaries and wages, an increase of \$5,519, or 3.2 percent, above the amount approved for FY 2011. The increase is due to the agency's inclusion of \$1,829 to continue the state undermarket pay adjustment which began in FY 2010, and \$3,690 due to scheduled increases in the employers' contributions rate for Group Health Insurance benefits and KPERS benefits. The agency reduced contractual services by \$3,690, or 2.8 percent to partially offset increases in salaries and wages. Agency Request

The **agency** requests FY 2011 expenditures of \$1,063,082, including \$821,379 from the Board of Pharmacy Fee Fund. The request is a decrease of \$143,017 or 11.9 percent below the agency's revised FY 2010 estimate. The agency's request includes enhancement requests of \$71,303, all from the Board of Pharmacy Fee Fund, for a replacement vehicle, salaries and wages for the prescription drug monitoring program, software maintenance, increased rent expense, and monumental surcharge. The agency also requests \$241,703 from the Harold Rogers Prescription Monitoring Program federal grant for the prescription drug monitoring program that was authorized by the 2008 Legislature in 2008 Substitute for Senate Bill 491. The federal grant will be used to pay for prescription drug monitoring software, a program administrator, an information technology position, and other implementation expenses. The agency's request does not include \$2,901, all from the agency's fee fund, for undermarket salary adjustments that were approved by the 2009 Legislature for FY 2010 but not for FY 2011. Absent all enhancement requests, the agency's FY 2011 request would be the same as the amount approved by the 2009 Legislature.

Governor's Recommendation

The **Governor** recommends FY 2011 expenditures of \$991,779, including \$750,076 from the Board of Pharmacy Fee Fund. The recommendation is a decrease of \$71,303, or 6.7 percent below the agency's request. The decrease is attributed to the Governor not recommending the agency's enhancements from its fee fund. The Governor recommends

\$241,703 from the Harold Rogers Prescription Monitoring Program federal grant to implement the prescription drug monitoring program. The Governor's recommendation does not include \$2,901, all from the agency's fee fund, for undermarket salary adjustments that were approved for FY 2010 but not for FY 2011.

House Budget Committee Recommendation

The **Budget Committee** concurs with the Governor's recommendation with the following notation:

1. The Budget Committee expresses growing concern about the accuracy of the agency's budget information that was presented to the Governor and to the Legislature. The Budget Committee is concerned about the agency's ability to develop a complete and accurate budget, due in part, to continuity issues at the agency. The Budget Committee notes that in the past four years, the agency has had a different staff person each year working on the budget.

The Budget Committee is also concerned with the agency's FY 2010 and FY 2011 net receipts into the agency's fee fund. Testimony presented by the agency differed greatly from the Governor's recommendation. The agency testified that net receipts increased from \$787,095 in FY 2008 to \$1,342,779 in FY 2009 due to a new class of licensees, an increase in the number of drug distributors registering, and some drug distributors inadvertently renewing twice in FY 2009. While the agency estimates net receipts of approximately \$1.4 million in FY 2010 and FY 2011, historical trends support the Governor's lower estimate of \$885,000 adjusted for the new receipts. Furthermore, the Budget Committee is concerned with the high ending balance in the agency's fee fund of at least \$1.1 million in FY 2011 or 152.3 percent of expenditures.

The Budget Committee requests the agency work with the Governor's Office or the appropriate authority to attain more training and familiarity with the budgeting process, so that a complete and accurate budget can be presented in future years to the Governor and the Legislature.

The request is an increase of \$168,037, or 4.4 percent above the amount approved by the 2009 Legislature. The agency requests an expenditure limitation increase of \$118,528 to cover the costs of relocating to a larger leased facility and increased rent for five months. The agency request also includes \$49,509 for undermarket salary adjustments that were approved by the 2009 Legislature for FY 2010, but not for FY 2011. The request funds 45.0 FTE positions.

Governor's Recommendation

The **Governor** recommends FY 2011 operating expenditures of \$3,885,857, all from the Board of Healing Arts Fee Fund. The recommendation is \$49,598, or 1.3 percent above the amount approved by the 2009 Legislature. The Governor did not recommend \$118,528, all from the Board of Healing Arts Fee Fund, for moving expenses and prorated rent. The increase is attributed entirely to undermarket salary adjustments that were authorized by the 2009 Legislature for FY 2010 but not for FY 2011. The recommendation funds 45.0 FTE positions.

House Budget Committee Recommendation

The **Budget Committee** concurs with the Governor's recommendation with the following notations:

1. The Budget Committee notes that the agency's fee fund will carry a high ending balance of approximately \$2.6 million if the Governor's FY 2011 recommendation is adopted. The agency testified that the high ending balance is a "snapshot" of its fee fund at one point in time and that the agency has its highest ending balances during the months of June, July, and August. The fee fund balance falls to its lowest point during April of each fiscal year, with approximately \$300,000 in the fund. The agency testified that in order for the agency to sustain itself, the agency must begin the fiscal year with as close to one-half of the appropriation as possible.

The Budget Committee notes that despite the high ending balance, the agency has had to borrow from the State General Fund in the past. During the 2004 and 2005 Legislative sessions, all fee-funded agencies had their fund balances reviewed for potential transfers to the State General Fund at the end of FY 2005. This resulted in the transfer of \$750,000 from the Healing Arts Fee Fund to the State General Fund. The agency stated that due to this transfer, it experienced cash flow problems by late February 2006 and had to borrow \$200,000 in fee fund revenues that were normally deposited into the State General Fund to cover its expenditures. In the appropriations bill for FY 2007, a proviso was included to allow the agency to borrow from the State General Fund during FY 2007, in case the agency experienced cash flow problems again. The agency did indeed experience cash flow problems in April 2007 (FY 2007) and borrowed \$100,000 from the State General Fund. Moneys borrowed were paid back to the State General Fund from the agency's fee fund at the end of FY 2006 and FY 2007. As a precaution, the agency testified it raised fees in FY 2007, FY 2008, and FY 2009 to cover the fee fund transfers, as well as costs associated with the 6.0 new FTE positions that were approved by the 2009 Legislature to address the agency's high case backlog.

2. Review the addition of \$118,528, all from the Healing Arts Fee Fund, for moving expenses and prorated rent at Omnibus. The agency stated its current lease will expire in January 2011 and the current landlord did not submit a bid. The agency stated that the Division of Facilities Management estimated total costs for the agency at \$118,528. Moving costs are estimated at \$83,250, calculated at the rate of \$1,850 per FTE position and the agency has 45.0 FTE positions. The remaining \$35,278 represents additional rent for the remainder of FY 2011 (from February to June 2011) that the new space will cost as compared the current rent.

MEMORANDUM

TO: House Appropriations Committee

FROM: Duane Goossen

DATE: February 25, 2010

SUBJECT: Agency Vacancies

Thank you for the opportunity to address the Committee on the subject of agency vacancies.

Considering the number and type of "vacant positions" within an agency can sometimes yield interesting information, but not necessarily help with developing budgets.

When an agency builds a budget request, the agency first makes a determination which positions will be "funded" in the budget, and the total cost of those positions is calculated. Using a very simple example, suppose an agency wants to budget for 20 positions and each position costs the agency \$50,000. The agency would start by funding each of those positions and the total of that would be \$50,000 times 20 or \$1 million. However, that is not the amount that makes it into the agency's budget request. After determining a total cost, shrinkage is applied, and the \$1 million total in the example is reduced to something less.

One reason for applying shrinkage is to recognize what we sometimes call turnover savings. Most agencies do not have all positions filled all of the time. When an employee leaves or retires, it might take a month to replace that person, and the agency saves a month's salary for that position.

A second and more important reason for applying shrinkage is to save money or lower the budget. An agency may not be able to afford to pay for all of their positions, so some amount is subtracted from the total salary budget.

In the example, the agency with 20 positions at \$50,000 each, needs \$1 million to be fully staffed, but the agency salary budget may be only \$900,000, which means that all throughout the year, the agency can afford to fill only an average of 18 positions.

The amount in an agency's salary budget governs everything.

Agencies manage to their salary budget. Position counts do not matter much. The agency that starts out with a \$1 million salary budget, but after shrinkage is applied has \$900,000 to spend, can stay within their budget and on average have 18 people at \$50,000 apiece, or they

Appropriations Committee
Date 2-25-10
Attachment 8-1

can have 36 employees at \$25,000 apiece, or if they can find people to work cheaply, they could have 90 people at \$10,000 apiece.

The agency is controlled by the budget, not by the number of people in the authorized position count. Which means it's much more important to know how many positions are filled, what those positions cost, and how that compares to an agency's salary budget, than it is to know how many positions are vacant.

Key questions to ask as we analyze budgets are:

- What is the right mix of staff for an agency to run its programs? How much does that cost?
- Does the agency's salary budget fund an adequate staff? Too many? Too few?
- How does the current salary budget compare to past actual spending?
- Which positions are filled now? If the salaries and benefits from those positions were annualized, how would that total compare to the amount in the salary budget?

Sometimes the Department of Administration receives requests for lists of vacant positions in our SHARP payroll system. A request like that came earlier this session and we provided the information. However, such a list does not necessarily correspond well to an agency's budget. By using the SHARP system we can see which positions are filled, and what those positions cost. The SHARP system also contains many vacant positions for which no paycheck is issued. However, just because a position is shown as vacant does not mean an agency budgeted for that position. Many of the vacant positions shown in SHARP were used by an agency at one time, but may not have been filled or funded for many years.

Finally, I would direct you to Schedules 9.1, 9.2, and 9.3 in the back of Volume I of the Governor's budget report. These schedules give three different views of the number of positions in state government.

Schedule 9.1 shows "authorized positions." Many, but not all, agencies have a limitation on the number of positions they can fill, although this limitation is largely meaningless and often much larger than what an agency's budget can support. Most agencies operate well below their "limit," but also have the option of filling an unlimited number of "non-FTE unclassified permanent" positions with permission, and if they have enough funding.

Schedule 9.2 shows the "headcount" of the average number of employees on the state payroll for a fiscal year. In this count, every employee, whether part-time or full-time, is counted as one.

Schedule 9.3 shows "mathematical FTE" positions. In this count, the amount of time state employees work is mathematically equated to full time, and gives the most accurate view of the effort required to staff an agency.
