TESTIMONY IN SUPPORT OF HB 2050

HB 2050 reinstates the Joint House-Senate Economic Development Committee with minor changes that increase the number of members appointed from the Commerce, Labor & Economic Development Committees in each chamber.

The Joint Economic Development Committee is designed to provide year-round oversight of economic development programs, such as STAR Bonds and PEAK, while researching economic development programs that work in other states for consideration in Kansas.

Please support HB 2050 to increase economic development program oversight, while providing opportunities to develop new programs for consideration by this committee.
