RE: HB2036

Dear Representative Mason:

The Salina Airport Authority supports the provisions of HB2036 due to the importance of attracting and retaining Kansas UAS industry employers and employees. In order to maintain Kansas' leadership in the UAS industry sector, both employers and employees should be provided incentives that motivate the use of Kansas engineering and technology institutions for UAS training. HB2036 positions Kansas to compete for new UAS industry growth.

The companies that are pioneering the commercial use of UAS aircraft and sensors are looking for locations offering public and private partnerships. HB2036 sends a clear signal that Kansas welcomes UAS growth and is willing to partner with the UAS industry.

Thank you for taking my comments into consideration.

Respectively submitted,

SALINA AIRPORT AUTHORITY

Timothy F. Rogers, A.A.E.
Executive Director

Cc: State Representative J. R. Claeys
