

**House Health & Human Services Committee
March 16, 2017
Testimony to support House Bill 2065
Melissa Panettiere
Director of Government Affairs
Blue Cross and Blue Shield of Kansas City**

Chairman Hawkins and Members of the Committee, my name is Melissa Panettiere and I am here today on behalf of Blue Cross and Blue Shield of Kansas City to testify in support of House Bill 2065.

Blue Cross and Blue Shield of Kansas City is a not-for-profit health plan serving residents in the greater Kansas City area, including Johnson and Wyandotte counties in Kansas and 30 counties in Northwest Missouri. Our mission is to use our role as the area's leading health insurer to provide affordable access to healthcare and improve the health and wellness of our members. The ability to provide affordable coverage is difficult given the uncertainty of the Affordable Care Act (ACA), also known as Obamacare. As many of you are aware, the never ending regulations stemming from Obamacare have made health insurance plans more expensive. In addition to the burdensome Federal regulations, State benefit mandates and increases in premium taxes have also contributed to the increase in health insurance premiums. The current environment of Repeal and Replace only adds to carriers' uncertainty to remain in certain markets in 2018.

In 2015, legislation was enacted that more than **tripled** the HMO privilege fee from 1% to 3.31%. The increased fee was retroactive and resulted in increased health insurance premiums for our HMO customers in Kansas the following year.

This legislation would again increase the privilege fee from 3.31% to 5.77%, **an increase of 477%** in just 2 years.

While the original privilege tax increase in 2015 was required to offset the Obamacare Health Insurer Fee that was imposed on the KanCare managed care plans, that fee was suspended for 2017 and we anticipate the Trump Administration and Congress will eliminate that fee shortly. Thus, the Commercial HMOs and their members are being selected to finance the budget deficit in Kansas instead of a specific consequence of the ACA.

Two house bills have been introduced aiming to offset the KanCare fees imposed by Obamacare. HB2180 would again require that the fee be imposed retroactively to January 1, 2017 thus eliminating our ability to include the fee increase in the premiums our customers are paying for their 2017 coverage.

HB2065 increases the tax to 5.77% also **but defers the effective date to 1/1/18**. We are in favor of that bill as we intend to cease selling HMO products in the state of Kansas due to the unsustainable privilege fee increases. We ask that you instead support that bill should it pass the House.

At a time when the health insurance markets are already experiencing uncertainty by the changes at Federal government it is incumbent of those at the state level to do all they can to create

environments that encourage a vibrant and competitive health insurance market. I would be happy to answer any questions you may have.
