Subject: Joey's Law message for hearing

The following is in reply for testimony concerning Joey's Law from John Weber.

The people of Kansas need Joey's Law. If a law like this would have existed prior to August 18, 2016, Joey Weber would likely be alive today. Nancy and I would hate to see another family experience the tragedy that we have had to endure. This law would also be very beneficial for law enforcement.

Like my cousin, the Gove County Sheriff, stated, "People don't like to be labeled, but sometimes it would be good if they were."

Please give this bill favorable consideration.

Sincerely,
John Weber
