**Public Health & Welfare Committee
In support of Senate Bill SB126
Testimony of Theresa Lewis**

February 6, 2017

Chairwoman Senator Schmidt and Members of the Committee, thank you for the opportunity to share our support of SB126 regarding background checks for day care facilities.

I am in support of the passage of this bill. Our children are in enough danger from just normal everyday situations over which they have no control. To think that people who are described in this bill would be able to obtain a child care facility license is very disturbing. The trauma of any type of child abuse or neglect can last for a lifetime and we as adults need to do all that we can to protect our children. Thank you very much for introducing this bill to protect our children.
