MEMORANDUM

To: Chairwoman McGinn and members of the Senate Ways and Means Committee

From: Jill A. Wolters, First Assistant Revisor

Date: February 13, 2018

Subject: **SB353 Abolishing the boiler inspection fee fund; transferring balances to the fire marshal fee fund.**

Currently, in the state treasury is the boiler inspection fee fund. Fees from the boiler safety act are deposited in the state treasury and credited: 10% to the state general fund and the remainder to the boiler inspection fee fund. The 10% (limited to \$100,000) is to reimburse the state general fund for accounting, auditing, budgeting, legal, payroll, personnel and purchasing services, and any and all other state governmental services, which are performed on behalf of the state agency involved by other state agencies which receive appropriations from the state general fund to provide such services.

Senate Bill No. 353 would abolish the boiler inspection fee fund and have the fees deposited into the fire marshal fee fund. The bill contains the general language that all moneys in/liabilities of the boiler inspection fee fund are transferred to/imposed on the fire marshal fee fund.

Two additional statutes are amended to implement this revision.

The bill will take effect upon publication in the statute book.
