

Glaciers Edge

Winery & Vineyard

Glaciers Edge Winery is a proud supporter of Big Springs Berries, and will continue to purchase fruit from them as our experience with them has been stellar. Beginning with the exceptional care and planning that went into their trellising plan and execution, to the production and delivery of the product and outstanding customer relations, Big Springs berries are a leap above all others in area. The product though, is what matters the most. Large, dark, luscious berries, hand picked at the peak of ripeness, and then chilled immediately so as to preserve the goodness within, were delivered to us, as promised on time and in the quantities requested. From the fruit delivered to us, we made a slightly sweet, blackberry wine that won a Bronze medal at the Texas International Wine Competition in January 2019. It is said that great wines begin with great fruit, lovingly nurtured and cultivated beginning with the new growth in the spring continuing on through harvest. Shane and Cain produce excellent fruit and we will not purchase our Blackberries from anyone else. One cannot out produce, Big Springs Berries', Blackberries.
