

February 11, 2020

Dear Education Committee Members,

I am writing to ask you to support Representative Huebert's bill, HB2601. As a Kansan, and a father with two children that have had reactions to vaccinations, I am against any vaccine mandates. Mandating vaccines violates our religious freedoms that we are guaranteed in the United States of America. Please do not allow the pharma funded KDHE to have any say in vaccination administration.

Thank you,

Jarrold Johnston

Concordia, KS
