Steve Huebert

House Education Committee

Kansas State Capitol

10<sup>th</sup> and Jackson, Room 286N

Topeka, Kansas

Dear Chairman Huebert,

I support and stand behind Bill HB2601, limiting the KDHE from mandating vaccines. Where there is risk there must be choice! The decision to vaccinate should be decided by each individual or by parents of minors. The state and government should have no right to decide what is best when it comes to medical procedures including vaccinations. I fully support exemptions, and feel that it is imperative that the state of Kansas maintains these exemptions. It is a human right that we maintain medical freedom!

Sincerely,

Karin Seiler

Wichita, Ks
