Re: HB 2601

Dear Education Committee Members,

I am writing this letter due to my support for HB 2601. Educating our representatives to the dangers of mandated vaccinations is essential.

As a medical professional I have heard and seen many people that have had personal injury due to vaccines. These mandated vaccines are now taking away the rights of parents and adults to make their own decisions on health care. I personally have been forced to take vaccines to maintain employment.

Please take time to learn more about this discussion affecting all Kansan's.
