

February 11, 2020

Dear Education Committee Members,

I very much support HB 2601. I do not believe such a small group of people with clear bias toward one side of the story on the benefits/risks of vaccines should be making state-wide decisions that impact all Kansas kids and families. The bill is reasonable in allowing for emergency concern without implementing a one-size-fits-all medical procedure.

Respectfully,

Joel Sowers  
Colby, KS
