

To whom it may concern:

As a Kansas voter we want to express that both women and babies deserve better than what the unlimited abortion industry offers.

Our Kansas Supreme Court last April made a ruling that needs their decision challenged in regards to the "right to an abortion" in the State of Kansas. Kansas does not need to become another state with abortion laws like New York and Virginia. Just last week took my 17 year old granddaughter for a dental procedure, they only want her Mom's signature.

As an underage teenager her parent was the only one able to give consent. The Kansas Supreme Court ruling would allow abortionists to do an abortion on any child without a parents knowledge or consent. A teen or child can't even have a mole removed without a parents consent. Animals have more protection than human babies. Something is wrong with this picture.

We support the VALUE THEM BOTH amendment to move thru the Kansas legislators both the House and Senate and then come to a vote of the Kansas voting population. As a life long Kansan I believe we must take our stand and support the cause of PLEASE SAVE THE BABIES. with a Value Them Both Amendment.

Mel and JuLee Adams, Topeka voting citizens for Kansas values
