

To The Committee for Federal and State Affairs:

I am Byron McNary. I would like to submit written testimony for HB 2563. I own McVapour LLC, a vapor shop in Derby, Ks. I have been in business for almost 7 years. After reading HB 2563 Sect 12(w) I realized that if this bill is passed with the current wording it will close my business. I understand the bill is intended to bring state law in line with federal law concerning tobacco sales. Current federal law only bans the selling of flavored PREFILLED tanks, cartridges and pods. It does not ban the selling of flavored e-juice as this bill would do. I would ask that you change the language in this bill to actually reflect federal law and not add to it as this is doing.

Thank you for your time

  
Byron McNary
