

1 the sign required by paragraph (1) in each patient waiting room and patient  
2 consultation room used by patients for whom medication abortions are  
3 provided.

4 (B) A hospital or other facility where medication abortions that use  
5 mifepristone are provided that is not a private office or freestanding  
6 surgical outpatient clinic shall post the sign required by paragraph (1) in  
7 each patient admission area used by patients for whom medication  
8 abortions that use mifepristone are provided.

9 (c) (1) Except in the case of a medical emergency, no physician shall  
10 provide, induce or attempt to provide or induce a medication abortion that  
11 use mifepristone without informing the woman, ~~by telephone or in person,~~  
12 at least 24 hours prior to the medication abortion:

in writing, in the manner prescribed by K.S.A. 65-6709, and amendments  
thereto

13 (A) That it may be possible to reverse the intended effects of a  
14 medication abortion that uses mifepristone, if the woman changes her  
15 mind, but that time is of the essence; and

16 (B) information on reversing the effects of a medication abortion that  
17 uses mifepristone is available on the department of health and  
18 environment's website, required to be maintained under K.S.A. 65-6710,  
19 and amendments thereto, and other relevant telephone and internet  
20 resources containing information on where the patient can obtain timely  
21 assistance to attempt to reverse the medication abortion.

22 (2) After a physician dispenses or provides an initial administration  
23 of mifepristone to a patient for the purposes of performing a medication  
24 abortion, the physician or an agent of the physician shall provide a legible,  
25 written notice to the patient that includes the same information as required  
26 under subsection (b)(1).

27 (d) When a medical emergency compels the performance of a  
28 medication abortion that use mifepristone, the physician shall inform the  
29 woman, prior to the medication abortion, if possible, of the medical  
30 indications supporting the physician's judgment that an abortion is  
31 necessary to avert the woman's death or that a 24-hour delay would create  
32 serious risk of substantial and irreversible impairment of a major bodily  
33 function, excluding psychological or emotional conditions.

34 (e) Within 90 days after the effective date of this section, the  
35 department of health and environment shall cause to be published, in  
36 English and in each language that is the primary language of 2% or more  
37 of the state's population, in print and on the website required to be  
38 maintained under K.S.A. 65-6710, and amendments thereto,  
39 comprehensible materials designed to inform women of the possibility of  
40 reversing the effects of a medication abortion that uses mifepristone and  
41 information on resources available to reverse the effects of a medication  
42 abortion that uses mifepristone. The website shall also include other  
43 relevant telephone and internet resources containing information on where
