

TESTIMONY OF RODGER J FAHERTY JR RESPECTFULLY SUBMITTED FOR HOUSE JUDICIARY COMMITTEE  
CONVENING 11 FEBRUARY 2020 RE: HB2306 IN TWO PARTS

Amends the original email of 26 January 2020 in that my age at certain places was misstated.  
Extending the time that victims of child sex abuse have to bring a cause of action.

Dear House Judiciary Committee Chair Representative Patton,  
Et Al,

I would have very much liked to testify in front of your august body about the first person to have stuck their tongue in my mouth when I was 15\*

Finian Meis (a Capuchin Friar of Church of The Good Shepherd in Shawnee KS., who badly needed a shave) during a 'counseling' session. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to so.

I would have very much liked to testify how the same priest was fondling my genitals while laying on top of me. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to what he was whispering in my ear. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to my behavior for the next 3 years of my life, about the drugs, (LSD, magic mushrooms, model glue, needles, pounds of marijuana, MDA, heroin, PCP, cocaine and the gallons of alcohol consumed) the treatment centers, suicide attempts, acts of violence and rage: one almost culminating in the death of my father at my hands. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify dropping out of high school just four months prior to graduating. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify how I denied my Creator and embraced the fallen dark archangel and the acts of black magic which followed. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to not having a recollection of this occurrence until my second treatment center at the age of 18. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to how I felt when I learned my father was 'Counseled' we wouldn't have a chance at a law suit unless a class action were to be filed and no other found victims

were willing to do so. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to how in the succeeding years I seduced, manipulated and treated the myriad of sexual partners and about the stds, group sex and the adulteries. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to the amount of guilt (albeit illusory) I feel which I can't even begin to fathom, much less attempt to contemplate. The amount of evil and its despicable effects visited upon my family because of this instance is incomprehensible, and it's all because of me. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to a life failed in its potential and wasted as to its ability to help improve our society. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to why I would never be able to trust anyone in any position of authority: LE, Counselors, Drs of Medicine including Psychology, much less my lack of interest in earning such a position of trust. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify how I break down sobbing every time I hear a news story about this subject while I'm thinking I'm not over this yet. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify how for decades I did not believe I was worthy to seek damages due to the fact I don't have any recollection of being sodomized as I've heard others have. And sue The Archdiocese of Kansas City in Kansas and the Order of Friars Minor, Capuchin (Denver). However, I don't think I'll be able to do so.

I would have very much liked to testify as to taking 25 years to get a college degree, in political science no less; but, I don't think I'll be able to do so. And why?

Because I've come to learn politics is the art of saying 'not yet' until 'not yet' no longer matters. My sins have finally caught up with me, I was diagnosed with Hepatitis C early this year, with stage 4 cirrhosis. I'd be very surprised after hearings, legislation, and enactment (if any) of changes to the current law I'd have enough of life left in me to sue.

However, others will.

With All Due Respect & The Utmost Sincerity,  
Rodger Faherty, Jr. 58
