

“As the County Commissioner representing the area of destruction that included over 40 homes, I urge adoption of SB 242 and/or House companion bill HR 2517. This important piece of legislation would change current Kansas law that allows counties to authorize tax abatement on homesteads, to also include an allowance for abating barns and other outbuildings.

Many of the residents in the path of destruction of the F4 tornado would directly benefit as would any victim of future property damaging events. “

Mike Stieben

Leavenworth County Commissioner District #5
