**Testimony to the House Transportation Committee
In Support of HB2608
February 18, 2020**

Chairman Proehl and Committee Members,

Our associations support HB2608 establishing rules for funeral processions that will enhance safety of all involved. The provisions are consistent with other relative laws. This should help with consistency across the state while preserving additional options under local control.

Funeral processions are handled in a variety of ways across the state. In many of our smaller population areas law enforcement agencies assist funeral directors in directing the processions. In more populated areas of the state law enforcement is used much less often and private escort businesses are utilized for the processions. And in some rural areas the funeral homes just handle it themselves, asking for law enforcement assistance when necessary. It appears all of these conditions have been covered in the provisions of HB2608.
