Re: House Bill No. 2332, 3rd Party Application Senders; NEUTRAL; WRITTEN TESTIMONY ONLY

TO: Honorable Chair Rep. Blake Carpenter, Honorable Vice Chair Rep. Emil Bergquist, Ranking Minority Member Rep. Vic Miller and members of the House Election Committee:

Please clarify the proposed new section (k); (1),(2),(3),(4). Should it be added that County Election Offices and other Kansas and County Government Agencies do not need to add (4) "Disclosure: This is not a government mailing. It is from a private individual or organization."?

We don't see where there is any exception for when a County Election Office, or a Kansas or a county government agency would send an Application for a Mailed Ballot to a voter, whether it's the only item that is being sent, or in a packet with other government forms or information.

Please consider the wording of this bill and the impact on Kansas Government mailings.

Respectfully,

**Teresa Briggs and Cille King, Co-Presidents
League of Women Voters of Kansas**
