Proponent

HB 2585

Written Testimony or virtual if allowed

House Elections Committee

Dear Mr. Chairman and Committee Members,

I would like to offer my testimony as a proponent of HB 2585. I am also a proponent of the Senate Bill that mirrors this one. I am a firm believer that once polls close all acceptance of ballots should cease. I can also argue that this bill gives people more personal responsibility for their own ballot and when it is returned. We do an awful lot to catering to the needs of all citizens in regards to voting, and I think that this matter lends a little more to the personal responsibility we all should have as adults to when they are returned.

A lot of controversy has stricken the United States over election integrity and it seems that tightening things up will be the best plan of action. Simply put, the election should end at the same time our polls close and that is how it should stay.

Our county officials and volunteers already give their time to assist, and it will be just one less matter for them to adhere to by limiting the deadline to match that of the polls themselves. Please support and pass HB 2585!

Thank You,

Missy Leavitt
