

From: The Jewish Community Relations Bureau | American Jewish Committee (JCRB | AJC)
Overland Park, Kansas
Opponent

To: House Committee on State and Federal Affairs
Hearing Date: January 15, 2021

Topic: HCR 5003

The Jewish Community Relations Bureau | American Jewish Committee (JCRB | AJC) has represented the interests of the Jewish communities of Kansas in matters of public policy since 1944.

JCRB | AJC strongly opposes HCR 5003 on the grounds that it would allow the state to prohibit members of the Jewish and other affected faith communities from making reproductive health decisions in accordance with their faith's tenets, in violation of the separation of church and state.

There is broad consensus in the Jewish community prioritizing the life of the mother over that of a fetus, making abortion permissible when the mother's life is at stake. Some Orthodox Jewish people, in addition to Conservative and Reform Jews, also consider rape, incest or the mother's physical health as other reasons for permitting the termination of a pregnancy. Thus, even under the strictest interpretation of Jewish law, there are circumstances that would justify an abortion. Therefore, HCR 5003, by removing the right to an abortion, would allow for the prohibition of reproductive health decision-making in accordance with Jewish law.

America was founded on the premise of religious freedom and pluralism with the separation of church and state as a core doctrine. The JCRB | AJC strongly urges you, as our elected representatives, to refrain from infringing upon citizens' rights to practice their faith by rejecting HCR 5003, thereby retaining the right of individuals to make their reproductive health decisions based upon the advice of family and health care providers and the tenets of their faith.

Sincerely,

Gavriela Geller
