

Dear elected leaders,

I am writing to express my support of HB 2251/SB 192. Unfortunately, I know too many women who have been affected by domestic violence. It is critical for the safety of victims of domestic violence that guns remain out of the hands of domestic abusers. This bill provides the common sense practice of allowing law enforcement to seize guns from the hands of those who have already committed violence. We need to close this loophole and ensure that we are doing everything we can to protect the survivors of domestic violence.

Thank you for your time and consideration,

Jen Spearie
