

Testimony to the Kansas Federal and State Affairs Committee

February 10, 2022

Franklin D Roosevelt said, “The only thing we have to **fear**, is **fear** itself.” **Fear** is always one of the items mentioned by opponents of Convention Of States. I’ve been told that there are 365 times in the Bible that we are told not to **fear**.

Many people will tell you, if asked, that our Constitution was divinely inspired and that the founders were brilliant men. I believe that both of these things are true. The founders are responsible for all of Article V, not just part 1, but for part 2 that applies to “*We the People*”.

A **yes vote**, is a vote to have a conversation. A Convention could, if agreed upon by delegates, propose amendments. Ratification by 3/4 of our 50 states is necessary before any proposals become law.

A no vote is a vote that tells “*We the People*” that we cannot convene to discuss the runaway Federal government.

It is my God given right, my Constitutional right, to have my voice heard.

Please, **vote yes** for **HCR5027**.
