Letter in Support of a Convention of States

Esteemed Committee,

I write in strong support of HCR 5027. Our forefathers endured and conquered the same impediments to the pursuit of happiness that we face today. Now, it's our responsibility to step up and correct the wrongs that have insidiously eroded our rights and freedoms. To correct the special interest governance that has created a spending appetite inconsistent with life. To reaffirm the citizen legislator and rebuke the career politician. Yes, we can still reverse this failing course. But, the window of opportunity is closing. Inaction will ensure the United States of America becomes a footnote in history of just another failed governmental system. Our foundation built on God and family demands better from us individually and collectively. We are not a nation of fear and we are not a nation of inaction. Today, together, let's move Kansas and the United States of America closer to a vibrant, successful future. With HCR 5027 and a Convention of States, we have our enemy identified. Let's swiftly eradicate them and reaffirm government as a watchdog to be fed and not a cow to be milked. I'm all in!

Sincerely,

A handwritten signature in blue ink that reads "Mark B. Steffen MD". The signature is stylized and includes the letters "MD" at the end.

Senator Dr. Mark Steffen
