RE: Testimony in Support of City Utility Low-Interest Program

I have seen the estimated February gas bill of \$241,400. The city cannot write that check. Gas customers cannot pay thousands of dollars all at once for their February bill. We need your help to support the city utility low-interest program legislation. This legislation could actually save the City of Denison. Having the extra time to pay this invoice and find extra resources will be critical to keep our city utilities operational.

Thank you in advance for supporting the city utility low-interest program legislation.
