RE: Testimony in Support of City Utility Low-Interest Program

I am a resident of Denison, Kansas. The arctic weather we experienced in February has left the City of Denison with a ridiculously high gas bill to pay. None of the city's customers can afford to pay these drastically high prices to heat our homes.

Please support the city utility low-interest program legislation. If the city could get a long-term loan to pay the bill, then its customers could pay over time and could afford payments.
Thank you!!!
