

February 17, 2022

Proponent of HB 2498

Madam Chair Landwehr and the House Committee on Health and Human Services:

The COVID 19 vaccine should NOT be mandated for children to attend school or daycare. They have virtually zero risk and there's no need for anyone with virtually zero risk to take this vaccine. It is my understanding that this bill would prohibit the secretary of health and environment from required this vaccine for these children. I support this bill.

Most sincerely,

Jill O'Connor

Overland Park, Kansas 66209

House District 20
