

WRITTEN TESTIMONY

February 18, 2022

PROPONENT of HB 2498

Madam Chair Landwehr and the House Committee on Health and Human Services:

Please vote for HB 2498.

PLEASE vote for protection of our children.

COVID-19 vaccine should not be mandated for children to go to school or daycare. Let God's beautiful design of the human body and natural immunity work, as it does in children. The power that made the body heals the body! This disease was never a big concern for this age group. Never before have children been used to keep adults from becoming sick.

Please help protect my 9 month old grandson, Kolsen.

Sincerely,  
Janeen Bezona  
Hesston, Harvey County, Kansas  
House District 31
