

SB14

Nathan Reinecker

January 19, 2021

Opponenet

House Judiciary

Chairman: Rep. Fred Patton

Hello, my name is Nathan Reinecker and I don't want to have the covid rules back in order because there is no point. I've seen people go in and out of stores, people going to friends houses, carpooling, Christmas parties, and family gatherings with no masks. Not to mention school, they say we have to wear a mask and social distance throughout the day. But during lunch, PE, and sports you don't. I have gone full days without correctly following the guidelines with no consequences. Which leaves the question, what is the point of having all of these restrictions half the time but not having to follow them the other half?
