

To the Redistricting Committee,

As a life-long Kansas Republican, I want to express my DISGUST at the proposed redistricting proposals whereby Wyandotte County is being split. Clearly, our Republican Party has lost its way, both at state level and nationally, and has no meaningful ideas to offer. It now can only resort to this obscene gerrymandering ploy to manipulate elections.

I think all Republicans in the House should be ashamed of themselves. You do us all a disservice and make yourselves look like fools. I do not support this proposed redistricting and I will not support any Republican candidates at the ballot box if this is allowed to continue.

Sincerely,
Michael Schermoly
