Re: Freestate 3 House Map

Chairman and Committee Members:

My name is Sherri Grogan. I live in rural Leavenworth County, west of Basehor. I am testifying in opposition to **Freestate 3**.

Concerns:

1. Including all of Ft. Leavenworth in one district gives citizens more power per vote than other districts. Most Ft. Leavenworth voters vote in their home district not in Kansas.
2. The Leavenworth community of interest is split by including a portion of the city in HD38. Leavenworth has more in common with HD41 and HD40 than with HD38. Citizens also identify more with Leavenworth than Basehor area.
3. The Leavenworth School District is split across three House districts. Leavenworth High School & Henry Leavenworth Elementary are now in HD38 instead of a HD40 or HD41.

Thank you for incorporating several key points from my previous testimony including keeping Lansing High School with HD40, keeping Basehor-Linwood area together, excluding Johnson County from HD38, and keeping both sides of County Road-1 corridor together. I also appreciate the opportunity to provide testimony.

Sincerely,

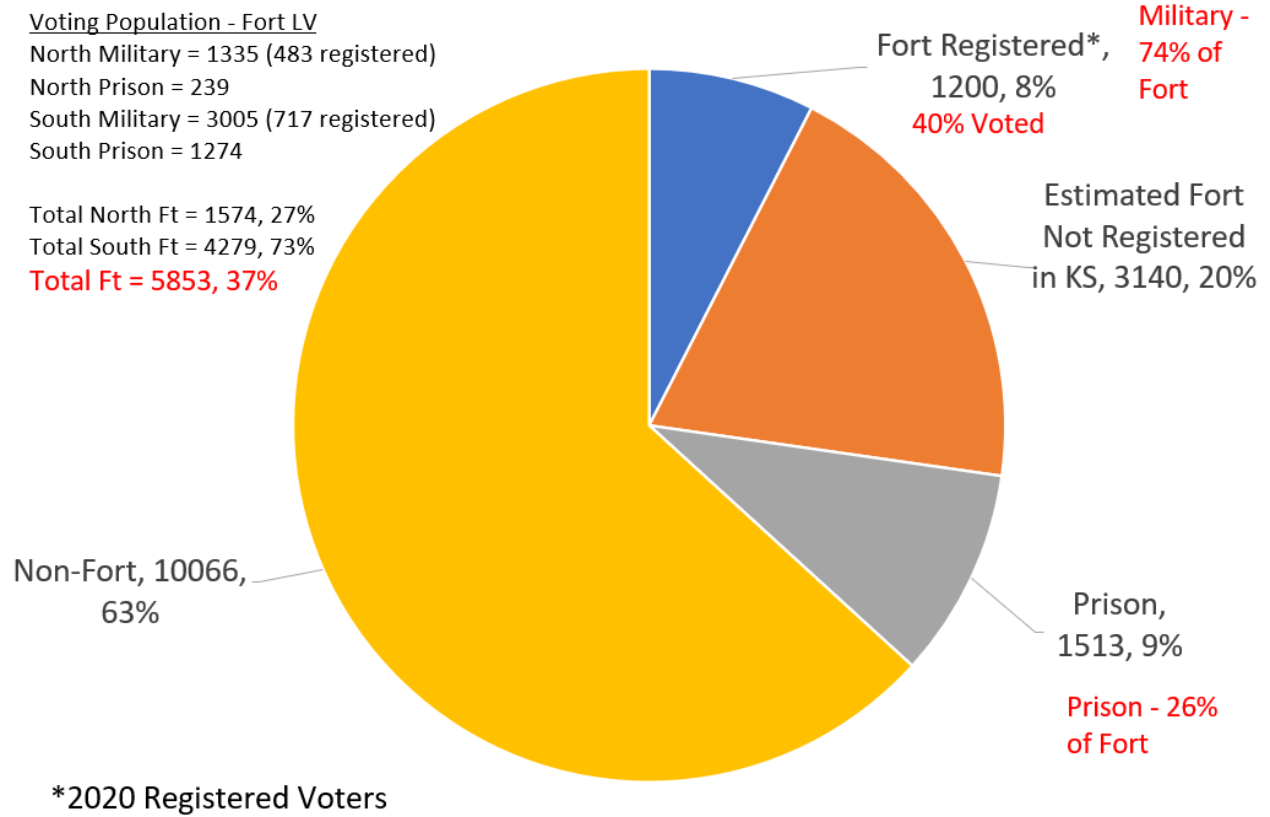

Sherri Grogan
