

Jada Childs, Student
Testimony in Opposition of SB208
Senate Education Committee
2/23/21

Hello, my name is Jada Childs and I'm a freshman at Clearwater High School. I have participated in volleyball for a few years, and I have recently been informed of the ban of transgender youth in school activities. In my opinion, there is nothing wrong with transgender persons being involved in sports through the school. I would see no problem with a transgender woman/female teammate. Everyone has advantages and disadvantages, so I don't believe it's fair to discriminate against transgender men or women. I can't speak for everyone, but I, myself, have no problem whatsoever, and encourage anyone to join our team.
