

February 10th
Hannah Mingucci
SB 389
Written Testimony

Dear Mr. Chairman and Committee Members,

Thank you so much for working on fixing our elections. It means a lot to me as I do not feel that our elections are secure. We must fix our elections, or we won't have a country anymore.

I am for SB 389 but amended. I want watermarks on the ballots but I do not want to vote with machines. Machines can be hacked especially if our legislative bodies or citizens can't look at the software. I am not a computer person. The people of Kansas want and need to vote Amish. I also want the ballots to be hand counted.

Thank you,
Hannah Mingucci
