

□ Medical Cannabis

My name is Tracy Morris and I have been in the medical field for over 30 years. It is my responsibility as a medical professional that you are aware of the positive effects of medical cannabis. There are so many Kansas that are addicted to opioids or other pharmaceutical prescriptions. Many medications aren't necessarily the solution, with all of the side effects. I personally am prescribe pain medication for my chronic pain. Doctors refuse To give me pain medication because of all the hoops they have to jump through to protect their license.. That's one reason I don't understand why a physician became a physician. It's the physician responsibility to keep a patient out of pain, they forgot their Oath. I have extreme extreme anxiety along with my chronic pain. There are days that it's very hard for me to get out of bed. I'm only 55

but I have a body of an 85 year old. For my chronic pain I make my own sauce out of marijuana. This helps take away my pain for fiber myalgia. For my anxiety, instead of taking xanax (which gives me a terrible hangover the next day), a side effect of the medication. I make my own jello gummies out of marijuana. And it definitely takes the anxiety away for me. As well the suffering of migraines. I'm a healer, I truly wish this state would open up their eyes and realize the benefits of medical cannabis. There are low risk factors and high benefits with the legalisation of medical cannabis for the state Kansas. We would be able to increase the economy and decrease the joblessness. In addition to Kansans, fall thru the cracks of not being able to afford insurance and don't qualify for Kancare. How great it would be to see Kansas flourish. So many States in our Union are beginning to prosper

with the legalisation of medical cannabis. Yet it's sad to see Kansas does not care about their people. I never thought in my lifetime at this stage of my life that I would have to struggle so hard daily just to live. Thank you for your time and patience, Best days ahead, Tracy Morris. 12.17.1966, 230 West B Ave. Kingman, Kansas 67068-1311
