Subject: Testimony Concerning SB 560

Position: Proponent of the Legislation

Chairman Olson and Committee Members,

Kansans should have access to safe and effective medicine without fear of criminal prosecution. Marijuana is one of the safest and most effective medicines on the planet. Kansans should be helping those in need, but instead we are arresting people who are seeking relief from their ailments. This is wrong. Pass medical marijuana legislation so that patients are no longer being turned into criminals for seeking relief.

Sincerely,

Kyle James, Disabled Veteran
