Chairman Thompson and members of the committee:

I am writing to you in **support of SB478**. This bill is necessary to protect the night skies in Kansas.

We have almost no air traffic in our area, especially at night, and yet red lights from wind turbines constantly flash in my windows from before sundown until after sunrise. I used to enjoy sitting outside at night listening to the birds and gazing at the stars, now I am almost surrounded by blinking red lights. Fortunately, this problem is easily remedied by requiring wind companies to install aircraft detection lighting systems.

Please vote in support of SB478.

Sincerely,
Bonnie Rasmussen
