

Captured License Plate Data; Open Records; SB 434

SB 434 amends law in the Kansas Open Records Act (KORA), as follows.

The bill amends a statute in KORA governing procedures for obtaining access to public records to require requests for records that contain captured license plate data or that pertain to the location of an automated license plate recognition system (ALPRS) submitted to a state or local law enforcement agency or governmental agency to be directed to the state or local law enforcement agency or governmental agency that owns, leases, or contracts for the ALPRS.

The bill also adds the above records to the statute governing records a public agency is not required to disclose and defines “automated license plate recognition system” and “captured license plate data” for the purposes of KORA.
