

SESSION OF 2022

**SUPPLEMENTAL NOTE ON SUBSTITUTE FOR HOUSE
BILL NO. 2737**

As Recommended by House Committee on
Redistricting

Brief*

Sub. for HB 2737 (Map Name: Free State 3F) would redraw the state's 125 House of Representative districts using data obtained from the 2020 Census.

The ideal size for each House district is 23,503. The guidelines adopted by the House Committee on Redistricting state the range of deviation for House districts should not exceed plus or minus 5.00 percent, equivalent to 1,175 persons. The deviation range of Free State 3F is minus 3.94 percent (926 persons) to plus 3.59 percent (843 persons).

Districts were built using counties, precincts, and census blocks.

Individuals wishing to obtain a copy of Free State 3F may contact the Kansas Legislative Research Department or visit www.kslegresearch.org/KLRD-web/Redistricting.html to view all proposed district plans with more detailed information and maps.

The bill would be in effect upon publication in the *Kansas Register*.

*Supplemental notes are prepared by the Legislative Research Department and do not express legislative intent. The supplemental note and fiscal note for this bill may be accessed on the Internet at <http://www.kslegislature.org>

Background

During the 2022 Session, the Kansas Legislature will redraw congressional, legislative, and State Board of Education districts. All districts are redrawn using 2020 data from the U.S. Census Bureau.

House Committee on Redistricting

The bill, as introduced, also would have redrawn the House districts (Map Name: Free State 3). The House Committee replaced the contents of the bill with Free State 3F and recommended those contents as a substitute bill.

Fiscal Information

A fiscal note was not provided for the bill, as introduced.
