The Senate Committee recommended the bill be placed on the Consent Calendar.

### **Fiscal Information**

According to the fiscal note prepared by the Division of the Budget on the bill, the Kansas Department of Transportation states an acceptable design for the signs would need to be developed before exact costs of the signs can be determined, but an estimated cost for signs would be \$7,280. A total of \$10,920 would need to be received from donations to install the signs. The agency also notes the signs would need to be replaced in approximately ten years due to sheeting deterioration. Implementation would require the expenditures limitation on the agency operations account to be increased by \$7,280 for FY 2023. Any fiscal effect associated with enactment of the bill is not reflected in *The FY 2023 Governor's Budget Report*.
