HB 2595 - School districts; of students residing outside the district

Senator Schodorf announced that **HB 2595** had been referred back to the committee. She then asked Theresa Kiernan, Office of the Revisor of Statutes, to provide a brief summary of the bill. This would authorize school districts to transport any non-resident pupil enrolled in and attending school in the district under K.S.A. 72-1046b. The pupil would be required to reside at least 10 miles from the attendance center that the pupil would have attended in the district where the pupil resides. The bill would eliminate the requirement of filing an application with the district in which the pupil resides on or before July 15 of the school year. The bill would require a district which allows a pupil to enroll under K.S.A. 72-1046b to notify the district in which the pupil resides before providing transportation to the student. Any pupil who is being provided such transportation would be counted in the enrollment of the district in which the pupil is enrolled and the district will not be reimbursed transportation costs. This legislation excludes any district with any part of the district being located in Johnson, Sedgwick, Shawnee, or Wyandotte counties. She stated the whole purpose of the bill was basically to eliminate the July 15 deadline.

Discussion regarding the definition of the 10-mile rule, which district receives transportation money, if any, and which district is allowed to count the student(s) as enrolled followed.

A floor amendment in the House deleted a provision which would have capped the low enrollment weighting of districts which are less than 200 square miles in area at 400 pupils.
