- (1) "Adult care home" means the same as defined in K.S.A. 39-923, and amendments thereto;
- (2) "authorized electronic monitoring" means the placement of one or more electronic monitoring devices in the room of an adult care home resident and making recordings with such devices after notifying the adult care home of the resident's intent to conduct electronic monitoring;
- (3) "electronic monitoring device" means a surveillance instrument used to broadcast or record activity or sound occurring in a room, including a video surveillance camera or an audio device designed to acquire communications or other sounds occurring in the room, but not to intercept wire or electronic communications; and
- (4) "resident's room" means a room in an adult care home that is used as a resident's private living quarters.

(b) A resident shall be permitted to conduct authorized electronic monitoring in the resident's room subject to the requirements of this section.

(c) An adult care home shall not discharge or refuse to admit a resident or person or otherwise retaliate against a resident or person based on conducting or consenting to authorized electronic monitoring.

(d) A resident, or such resident's guardian or legal representative, who wishes to conduct authorized electronic monitoring shall notify the adult care home on a form prescribed by the secretary for aging and disability services. Such form shall be maintained in such person's resident file at the adult care home and shall require the resident, or such resident's guardian or legal representative, to:

- (1) Release the adult care home from any civil liability for a violation of the resident's privacy rights in connection with the use of the electronic monitoring device;
- (2) be informed of the proper procedures for reporting complaints, as outlined by the Kansas department for aging and disability services;
- (3) if the electronic monitoring device is a video surveillance camera, choose whether the camera will always be unobstructed or will be obstructed in specified circumstances to protect the dignity of the resident; and
- (4) if the resident resides in a multi-resident room, obtain the consent of other residents in the room on a form prescribed for this purpose by the secretary.

The adult care home shall provide a copy of the completed form to the resident, any resident or residents with whom the resident shall share a room and the office of the state long-term care ombudsman.

(e) An adult care home shall make reasonable physical accommodations for authorized electronic monitoring, including:

- (1) Providing a reasonably secure place to mount the electronic monitoring device;
- (2) providing access to power sources for the electronic monitoring device;
- (3) making reasonable accommodations if a resident in a multi-resident room wishes to conduct electronic monitoring pursuant to this section and the resident or residents with whom the resident shares the room do not consent to the monitoring, including offering to move the resident who wishes to conduct electronic monitoring to another shared room that is available or becomes available; and
- (4) making reasonable accommodations if a resident wishes to conduct electronic monitoring and another resident begins residing in the multi-resident room who does not

consent to the monitoring before moving the resident wishing to conduct electronic monitoring.

(f) Any resident who has previously conducted authorized electronic monitoring must obtain consent from any new roommates before the resident may resume authorized electronic monitoring. If a new roommate does not consent to electronic monitoring and the resident conducting the authorized electronic monitoring does not remove or disable the electronic monitoring device, the adult care home may turn off the device.

(g) Consent may be withdrawn by the resident, the resident's guardian or legal representative, or any roommate at any time, and the withdrawal of consent shall be documented in the resident's clinical record. If a roommate withdraws consent and the resident conducting the electronic monitoring does not remove or disable the electronic monitoring device, the facility may turn off the electronic monitoring device.

(h) A resident, or such resident's guardian or legal representative, shall pay all costs associated with installing and maintaining an electronic monitoring device requested under this section.

(i) Each adult care home shall post a conspicuous notice at the entrance to the adult care home and each resident's room stating that the rooms of some residents may be monitored electronically by or on behalf of the room's resident or residents.
