RE: HB2373

To Whom it May Concern:

I am writing in support of HB2373 proposed by Rep. Ken Collins of the Second District which would allow the retail sales of consumer fireworks in the week leading up to the New Year. The border states of Missouri and Oklahoma already allow for such sales, as do many other states throughout the United States. It seems only fitting that Kansas retail fireworks business owners should have the ability to offer the same service to Kansas citizens.

Respectfully submitted,
