Testimony in Support of SB 209 re: Election Security

Kansas Representatives,

We need to pass SB 209. As a precinct committeeman in Johnson County, I was shocked by recent AP and NBC news reports of JoCo election worker data theft by the Chinese-owned company Konnech during the last election cycle. Volunteers went door to door to encourage neighbors to get out and vote, all while local elections officials were caught flat footed regarding voting technology breaches. Elections need to be secure, and should have a hard stop at 7:00 pm. Let's pass SB 209 to better protect the sanctity of our Kansas vote—it is of importance for both the security of our state, and our nation.

Sincerely,

Tim McCabe

Lenexa, Kansas
